TURBOMINDZ

Pre-App Launch Execution Plan

Complete Step-by-Step Operations Manual
Account Setup | Content Prompts | Image Prompts | Daily Operations

Date: April 08, 2026
Prepared for: Hugo (Solo Founder)
Budget: $19-41/month | Time: 1-2 hours/day

"Build the ship while selling the stars."

PHASE 0: INFRASTRUCTURE SETUP (Days 1-7)

This phase sets up every account, platform, and tool needed to operate Turbomindz without the app. By Day 7, you will have 150 NFTs listed, a token-gated Discord, a Patreon, a Gumroad store, social media accounts, a newsletter, and a landing page website. Total monthly cost: $19-41.

DAY 1: MetaMask + OpenSea Collection + First 10 NFTs

Step 1A: MetaMask Wallet Setup

If you already have MetaMask configured with Polygon, skip to Step 1B.

- Go to https://metamask.io/download/ and install the browser extension for Chrome/Firefox/Brave
- Click "Create a new wallet"
- Set a strong password (12+ characters)
- CRITICAL: Write down your 12-word Secret Recovery Phrase on paper. Store it physically. Never photograph it. Never store it digitally. This phrase controls all your funds and NFTs.
- Confirm the recovery phrase as prompted

Add Polygon Network to MetaMask:

- In MetaMask, click the network dropdown (top-center, says "Ethereum Mainnet")
- Click "Add Network" > "Add a network manually"
- Enter these exact values:

Network Name: Polygon Mainnet | RPC URL: https://polygon-rpc.com | Chain ID: 137 | Currency Symbol: MATIC | Block Explorer: https://polygonscan.com

- Click "Save." Switch to Polygon Mainnet.

Fund Your Wallet with MATIC:

- You need a small amount of MATIC for gas fees (listing on Polygon costs < $0.01 per transaction)
- Option A (Easiest): Buy MATIC directly inside MetaMask using the "Buy" button (accepts debit card via Transak/MoonPay)
- Option B: Buy MATIC on Coinbase, Binance, or Kraken, then withdraw to your MetaMask Polygon address
- Recommended amount: $5-10 worth of MATIC (enough for hundreds of listings)

Step 1B: OpenSea Account + Collection Setup

- Go to https://opensea.io
- Click the wallet icon (top right) > "MetaMask"
- MetaMask popup appears > click "Connect"
- OpenSea creates your account automatically based on your wallet

- Go to your profile icon > Settings > fill in: Username: Turbomindz | Bio: (see prompt below) | Email: hugogaona@gmail.com | Profile Image: Cosmo character art | Banner: Hero background image

PROMPT: OpenSea Profile Bio

> *Write a 150-word bio for the Turbomindz OpenSea profile. Turbomindz is an 888-scene philosophical art NFT collection on Polygon featuring 4 claymation characters (Cosmo, Nova, Stella, Luna) traveling through 39 universes exploring wisdom from history's greatest thinkers. Each scene contains a public domain quote, 5 hidden easter eggs, and connects to a narrative spanning 3 acts. NFTs can be permanently "married" to physical artworks. Voice: 35% witty, 30% warm, 20% curious, 15% artfully simple. Never corporate. Include the motto: "The NFT is the soul. The art is the body. The community is the village." End with a call to join Discord. Use "Collect" not "Buy." Use "Travelers" not "Users."*

Create the Collection:

- Go to https://opensea.io/collections > "Create a Collection"
- Collection name: Turbomindz Odyssey
- Description: (see prompt below)
- Logo image: Turbomindz logo (1:1 square, 350x350px minimum)
- Banner image: Hero background (1400x350px)
- Category: Art
- Blockchain: Polygon
- Creator earnings: 5% (enter your wallet address as the payout address)
- Links: Your website URL, Discord invite link, Instagram URL, Twitter URL
- Click "Create"

PROMPT: OpenSea Collection Description

> *Write a 300-word description for the "Turbomindz Odyssey" OpenSea collection. It must cover: (1) What it is: 888 philosophical art scenes on Polygon featuring claymation characters, (2) The 4 characters briefly (Cosmo the curious astronaut, Nova the pattern-seeing guide, Stella the community weaver, Luna the quiet observer), (3) The 39 universes and 9 philosophical themes, (4) The easter egg system (5 hidden in every scene), (5) The marriage concept (permanently linking NFTs to physical artworks), (6) The community (Discord, forum, witnessed economy), (7) Pricing in MATIC. Voice: Turbomindz brand voice. Include the motto. End with: "Own a scene. Join the village. Begin the odyssey." Use paragraphs, not bullet points.*

Step 1C: List First 10 Genesis NFTs

- Go to https://opensea.io > "Create" (top right)
- For each NFT (TM-001 through TM-010):

1. Upload the Midjourney-generated image (1:1 square, minimum 1000x1000px)
2. Name: "TM-001 — The Cathedral of First Questions" (use the exact scene title)
3. External link: https://turbomindz.com/scene/001 (placeholder for now)
4. Description: Use the OpenSea listing description from your NFT production package
5. Collection: Select "Turbomindz Odyssey"
6. Supply: 1
7. Blockchain: Polygon

8. Properties/Traits: Add all metadata attributes:

Trait Type	Value (Example for TM-001)
Theme	Classical Foundations
Universe	U1 Alchemical Renaissance
Act	Act I: Foundations
Chapter	[Chapter Name]
Characters	Cosmo
Art Style	Renaissance Alchemical
Scene Number	1
Marriage Status	Unmarried
Rarity	Genesis
Quote Author	Socrates

9. Click "Create." The NFT is minted on Polygon (free).

10. After creation, click "Sell" > Fixed Price > Set price to 26 MATIC > Duration: 6 months > "Complete Listing"

11. Repeat for all 10 Genesis NFTs.

Genesis NFT Pricing: 26 MATIC each (TM-001 through TM-010)

PROMPT: Generate All 10 Genesis NFT Listings

> *Generate complete OpenSea listing descriptions for TM-001 through TM-010 (Genesis scenes). For each scene, provide: (1) The title in format "TM-XXX — [Scene Title]", (2) A 150-200 word description in Turbomindz voice (35% witty, 30% warm, 20% curious, 15% artfully simple), (3) A verified public domain quote (author died before 1956) with verification, (4) 5 easter eggs hidden in the scene, (5) All metadata traits (Theme, Universe, Act, Characters, Art Style, Scene Number, Marriage Status = Unmarried, Rarity = Genesis, Quote Author). Universe is U1 Alchemical Renaissance. Theme is Classical Foundations (#1A237E). Cosmo appears solo in TM-001 through TM-005. Nova joins in TM-006. Use the format from the Weekly Production Command System document. Each description must end with: "Part of the Turbomindz Odyssey — 888 scenes of philosophical art across 39 universes."*

PROMPT: Midjourney Prompts for 10 Genesis Scenes

> *Generate 10 Midjourney image prompts for TM-001 through TM-010 (Genesis scenes in U1 Alchemical Renaissance). Each prompt must follow this exact template: [Scene description with characters and action] in Alchemical Renaissance style, [character descriptions: Cosmo = small claymation astronaut with orange boots and fishbowl helmet], [5 easter egg elements woven in], Classical Foundations color palette deep blue (#1A237E) and gold, [mood and atmosphere], claymation stop-motion plasticine Pixar meets Aardman aesthetic, [composition direction], [lighting description], warm rich textures, museum-quality detail, philosophical depth --ar 1:1 --v 7 --s [250-350] --q 2. TM-001 is "The Cathedral of First Questions" (Cosmo arriving alone). TM-006 introduces Nova (alien guide with 3 floating golden orbs). Each scene must have a unique composition and philosophical focus.*

DAY 2: Discord Server + Guild.xyz Token Gating

Step 2A: Create Discord Server

- Open Discord (desktop app or https://discord.com)
- Click the "+" icon on the left sidebar > "Create My Own" > "For a club or community"
- Server name: Turbomindz
- Upload server icon: Turbomindz logo
- Click "Create"

Create Channels (in this exact order):

Category	Channel	Permissions
PUBLIC	#welcome	Everyone can see, nobody can post (read-only)
PUBLIC	#about-turbomindz	Everyone can see, nobody can post (read-only)
PUBLIC	#how-to-buy	Everyone can see, nobody can post (read-only)
PUBLIC	#announcements	Everyone can see, only admins post
COLLECTORS ONLY	#general	Collector role required
COLLECTORS ONLY	#philosophy-corner	Collector role required
COLLECTORS ONLY	#art-discussion	Collector role required
COLLECTORS ONLY	#marketplace	Collector role required
COLLECTORS ONLY	#easter-egg-hunts	Collector role required
COLLECTORS ONLY	#marriage-requests	Collector role required
COLLECTORS ONLY	#governance	Collector role required
COLLECTORS ONLY	#beta-feedback	Collector role required
ELDER COUNCIL	#elder-council	Elder role required (Patreon $50 tier)

Create Roles:

- Server Settings > Roles > Create Role:
- Role 1: "Collector" (Gold color #D4AF37) — This is auto-assigned by Guild.xyz when someone owns a Turbomindz NFT
- Role 2: "Elder" (Purple color #6A3E86) — Manually assigned to Patreon Elder Council tier ($50/mo)
- Role 3: "Founding Member" (Teal color #0D3D47) — For beta testers and early supporters

Set Channel Permissions:

- For each channel in "COLLECTORS ONLY" category: Edit Channel > Permissions > deny @everyone "View Channel" > allow "Collector" role "View Channel" and "Send Messages"
- For #elder-council: deny @everyone and Collector > allow "Elder" role only

PROMPT: Discord #welcome Channel Message

Write a welcome message for the Turbomindz Discord #welcome channel. It should: (1) Greet visitors warmly in Cosmo's voice, (2) Explain what Turbomindz is in 3 sentences, (3) Explain how to become a Collector: "Own a Turbomindz NFT on OpenSea to unlock the full village," (4) Link to OpenSea collection, (5) List what Collectors get access to (philosophy discussions, marketplace, easter egg hunts, governance), (6) End with the motto. Use Discord markdown formatting (bold, headers, emojis). Keep it under 500 words. Voice: warm, inviting, not corporate.

PROMPT: Discord #how-to-buy Guide

Write a step-by-step guide for the #how-to-buy channel explaining how to purchase a Turbomindz NFT. Steps: (1) Install MetaMask wallet (link: metamask.io), (2) Add Polygon network to MetaMask (provide exact settings: RPC URL: https://polygon-rpc.com, Chain ID: 137, Symbol: MATIC), (3) Get MATIC tokens (buy inside MetaMask or transfer from an exchange), (4) Visit the Turbomindz collection on OpenSea (link), (5) Browse scenes and click "Buy Now," (6) Confirm in MetaMask, (7) Return to Discord and Guild.xyz will auto-verify your NFT and grant the Collector role. Include a troubleshooting section for common issues. Use Discord markdown. Voice: helpful, patient, beginner-friendly. A complete crypto-novice should be able to follow this.

Step 2B: Guild.xyz Token Gating Setup

- Go to https://guild.xyz
- Click "Connect Wallet" (top right) and connect your MetaMask
- Click "Create Guild"
- Guild name: Turbomindz
- Description: "Own a philosophical art NFT to enter the village"
- Click "Add Reward" > select "Discord" > authorize the Guild.xyz bot to your Discord server
- Select your Turbomindz Discord server from the dropdown
- Create a Role: Name = "Collector"
- Under "Requirements": Click "Add requirement" > "Hold an NFT"
- Chain: Polygon
- NFT Contract Address: [Your Turbomindz ERC-721 contract address from OpenSea]

To find this: Go to any of your listed NFTs on OpenSea > scroll down to "Details" > copy the "Contract Address"

- Set minimum amount: 1 (must hold at least 1 Turbomindz NFT)
- Map the "Collector" Guild role to the "Collector" Discord role
- Click "Create Guild"
- Test: Use a second wallet to purchase one of your NFTs, then visit your Guild page and verify the Collector role is auto-assigned

IMPORTANT: Guild.xyz is completely free. It checks the blockchain in real-time. When someone buys a Turbomindz NFT on OpenSea, they can immediately go to your Guild page, connect their wallet, and get the Collector role on Discord. No manual verification needed.

DAY 3: Patreon + Ko-fi Setup

Step 3A: Patreon Creator Page

- Go to https://www.patreon.com > "Create on Patreon"
- Sign up with hugogaona@gmail.com
- Page name: Turbomindz
- Category: Visual Arts / Digital Art
- About section: (see prompt below)
- Profile photo: Cosmo character art
- Cover image: Turbomindz hero art
- Connect payout: PayPal or Stripe (Patreon pays out monthly, 1st-5th of each month)

Create 5 Tiers:

Tier Name	Price	Benefits
Curious Traveler	$3/mo	Weekly Odyssey Dispatch email, Collector Discord role, Name on supporters wall
Pattern Seeker	$7/mo	All above + Early scene previews (48hr before public), Monthly PDF art book, Behind-the-scenes posts
Community Weaver	$15/mo	All above + Monthly exclusive phone wallpaper, Monthly Q&A session access, Name in NFT credits

Silent Observer	$30/mo	All above + Easter egg naming rights (name 1 egg/month), Exclusive Luna content, Quarterly art print (digital)
Elder Council	$50/mo	All above + Annual custom NFT commission, Governance input on project decisions, Private #elder-council Discord channel, Video call with founder (quarterly)

Fee structure: Patreon takes 10% platform fee + payment processing (2.9% + $0.30). On a $7 tier, you receive approximately $5.77.

PROMPT: Patreon Page "About" Section

Write a 400-word "About" section for the Turbomindz Patreon page. Structure: (1) Opening hook explaining what Turbomindz is for someone who has never heard of it, (2) The vision: 888 philosophical art scenes across 39 universes, 4 claymation characters, public domain wisdom, (3) Why Patreon: this is how fans can directly support the creation of a philosophical art universe while getting exclusive access, (4) What supporters fund: art creation (Midjourney), platform costs, and eventually the app/marketplace, (5) The community angle: "You're not subscribers, you're travelers," (6) End with the motto and a warm invitation. Voice: Turbomindz voice (35% witty, 30% warm, 20% curious, 15% simple). Never use "subscribers" or "fans" — use "travelers" or "fellow seekers."

PROMPT: Patreon Tier Descriptions (All 5)

Write the description text for each of the 5 Turbomindz Patreon tiers. For each tier, write 50-80 words that explain the benefits in Turbomindz voice. Tier names and prices: Curious Traveler ($3), Pattern Seeker ($7), Community Weaver ($15), Silent Observer ($30), Elder Council ($50). Each description should feel like an invitation to a deeper level of the journey, not a sales pitch. Reference the character associated with each tier: Curious Traveler = Cosmo's level, Pattern Seeker = Nova's level, Community Weaver = Stella's level, Silent Observer = Luna's level, Elder Council = all four characters combined. Use the characters' personality traits in the descriptions.

Step 3B: Ko-fi Page Setup

- Go to https://ko-fi.com > "Sign Up"
- Email: hugogaona@gmail.com
- Page URL: ko-fi.com/turbomindz
- Display name: Turbomindz
- Avatar: Cosmo character art
- Bio: (see prompt below)
- Connect PayPal or Stripe for instant payouts
- Set up donation goal: "Fund the Turbomindz App" with a target amount
- Ko-fi takes 0% fee on donations. On shop sales, they take 0% on the free plan (only payment processing applies: ~2.9% + $0.30)

PROMPT: Ko-fi Page Bio

Write a 100-word bio for the Turbomindz Ko-fi page. Explain what Turbomindz is in 2 sentences. Explain what donations support in 2 sentences. End with: "Every coffee funds a scene in the odyssey." Voice: warm, casual, grateful. Use Cosmo's personality (curious, encouraging).

DAY 4: Social Media Accounts

Step 4A: Instagram Business Account

- Create Instagram account: @turbomindz
- Profile photo: Cosmo character art (square, clear at small size)
- Bio: (see prompt below)
- Switch to Business Account: Settings > Account > Switch to Professional Account > Business > Category: Art
- Link: Linktree URL (set up on Day 5)

PROMPT: Instagram Bio (150 characters max)

> *Write an Instagram bio for @turbomindz in exactly 150 characters or less. Must include: what it is (philosophical art + NFT), the key differentiator (marry digital to physical), and a CTA. Use line breaks for formatting. Include 1-2 relevant emojis. Do not include hashtags in the bio.*

Step 4B: Twitter/X Account

- Create Twitter account: @turbomindz
- Display name: Turbomindz | Philosophical Art
- Profile photo: Cosmo character art
- Banner: Turbomindz hero image (1500x500px)
- Bio: (see prompt below)
- Location: The 39 Universes
- Website: Linktree URL

PROMPT: Twitter/X Bio (160 characters max)

> *Write a Twitter/X bio for @turbomindz in 160 characters or less. Must convey: 888 philosophical art scenes, NFTs on Polygon, the marriage concept, and community. Include the most important hashtag (#PhilosophicalArt or #PhygitalArt). Use Cosmo's voice.*

Step 4C: Pinterest Business Account

- Go to https://business.pinterest.com > "Join as a business"
- Business name: Turbomindz
- Email: hugogaona@gmail.com
- Website: your landing page URL
- Create 9 boards (one per philosophical theme): "Classical Foundations," "Enlightenment & Reason," "Existentialism & Modern," "Mysticism & Esoterica," "Eastern Wisdom," "Science & Modernity," "Poetry & Aesthetics," "Civic & Social," "Psychology & Mind"
- Create 3 additional boards: "Turbomindz Characters," "Art Education," "Philosophical Quotes"
- Pin 20 NFT images across these boards on Day 4 (2-3 per board)

PROMPT: Pinterest Board Descriptions (All 12)

> *Write 50-word Pinterest board descriptions for each of these 12 Turbomindz boards. Each description must be keyword-rich for Pinterest SEO. Boards: Classical Foundations, Enlightenment & Reason, Existentialism & Modern, Mysticism & Esoterica, Eastern Wisdom, Science & Modernity, Poetry & Aesthetics, Civic & Social, Psychology & Mind, Turbomindz Characters, Art Education, Philosophical Quotes. Include relevant keywords: philosophical art,*

NFT art, digital art, claymation, Polygon NFT, art collection. Voice: informative, search-optimized, but not robotic.

DAY 5: Gumroad + Linktree + First Products

Step 5A: Gumroad Account

- Go to https://gumroad.com > "Start Selling"
- Sign up with hugogaona@gmail.com
- Profile name: Turbomindz
- Bio: same as Ko-fi bio
- Connect Stripe or PayPal for payouts (Gumroad pays out every Friday)
- Fee: 10% + $0.50 per sale (no monthly fee)

Create First 3 Products:

Product 1: "Phygital Art 101" (FREE — Lead Magnet)

- Type: Digital product > PDF
- Price: $0 (free, requires email to download)
- This captures email addresses for your newsletter funnel

PROMPT: Gumroad Product: Phygital Art 101 PDF

> *Write the complete text content for a 12-page PDF called "Phygital Art 101: The Complete Beginner's Guide to Marrying Physical and Digital Art." Structure: Cover page (title + Turbomindz branding), Page 2: What is Phygital Art? (define the concept in plain language), Page 3: The History (from cave paintings to NFTs, 300 words), Page 4-5: How Digital Art Became Valuable (the NFT revolution, explained simply), Page 6-7: The Marriage Concept (permanently linking a physical artwork to a digital NFT, why this matters), Page 8-9: How Turbomindz Does It (the 6-step marriage process, the witnessed economy), Page 10: The Philosophy (why "The NFT is the soul, the art is the body" matters), Page 11: How to Get Started (step-by-step: get MetaMask, buy MATIC, browse OpenSea, purchase a scene), Page 12: Resources (links to Turbomindz OpenSea, Discord, Patreon, and social media). Voice: educational, accessible, warm. A non-crypto person with zero blockchain knowledge should finish this PDF feeling informed and curious, not confused. Include 2-3 PD-verified quotes. No jargon without explanation.*

Product 2: "9 Philosophical Questions" Quote Cards (FREE — Lead Magnet)

- Type: Digital product > PDF pack
- Price: $0 (free, email required)
- 9 beautifully formatted quote cards, one per Turbomindz theme

PROMPT: Gumroad Product: 9 Philosophical Questions Cards

> *Write 9 quote card texts for a free PDF download called "9 Philosophical Questions That Changed Everything." Each card corresponds to one Turbomindz theme. For each card provide: (1) The theme name and color hex code, (2) The central philosophical question, (3) A PD-verified quote from a philosopher associated with that theme (author died before 1956), (4) A 30-word reflection in Turbomindz voice connecting the question to daily life, (5) The philosopher's name and dates. Themes and questions: Classical Foundations (What is virtue?), Enlightenment & Reason (Can reason alone guide us?), Existentialism (What gives life meaning?), Mysticism (What lies beyond what we can see?), Eastern Wisdom (How do we find balance?), Science & Modernity (What can we truly know?), Poetry & Aesthetics (What makes something beautiful?), Civic & Social (What do we owe each other?), Psychology & Mind (Who are we beneath our masks?). Verify every quote is public domain.*

Product 3: "Cosmo's Daily Wisdom Journal" ($5)

- Type: Digital product > PDF
- Price: $5
- A 30-day philosophical reflection journal

PROMPT: Gumroad Product: Daily Wisdom Journal

> *Write the complete text content for a 35-page printable PDF journal called "Cosmo's Daily Wisdom Journal: 30 Days of Philosophical Reflection." Structure: Cover page, Introduction by Cosmo (200 words, encouraging, curious), then 30 daily pages. Each daily page has: (1) Day number and a PD-verified quote at the top, (2) "Today's Question" — a philosophical question related to the quote, (3) "Reflect" — 3 lined spaces for writing, (4) "Cosmo Whispers" — a 20-word encouraging micro-reflection from Cosmo. End with a "Your Odyssey Continues" page linking to Turbomindz OpenSea and Discord. The 30 quotes must cover all 9 themes (roughly 3-4 quotes per theme). All quotes PD-verified. Voice: gentle, curious, encouraging. This journal should feel like a friend guiding you through philosophical self-discovery, not a textbook.*

Step 5B: Linktree Setup

- Go to https://linktr.ee > "Sign Up Free"
- Username: turbomindz
- Add these links in this exact order:

Link Title	URL	Priority
Browse the Collection (OpenSea)	https://opensea.io/collection/turbomindz-odyssey	1
Join the Discord	https://discord.gg/[your-invite-code]	2
Support on Patreon	https://patreon.com/turbomindz	3
Free: Phygital Art 101 (PDF)	https://turbomindz.gumroad.com/l/phygital-101	4
Shop Digital Products	https://turbomindz.gumroad.com	5
Buy Me a Coffee (Ko-fi)	https://ko-fi.com/turbomindz	6
Read on Medium	https://medium.com/@turbomindz	7
Our Website	https://turbomindz.com (or Carrd URL)	8

DAY 6: Newsletter + Medium

Step 6A: Buttondown Newsletter

- Go to https://buttondown.com > "Get Started"
- Email: hugogaona@gmail.com
- Newsletter name: The Odyssey Dispatch
- Description: "A weekly letter from Cosmo. Philosophy, art, community, and the occasional existential crisis."
- Free tier: up to 100 subscribers, unlimited emails
- Paid plan ($9/mo): when you pass 100 subscribers
- Create a 3-email welcome sequence:

PROMPT: Welcome Email Sequence (3 Emails)

> *Write a 3-email welcome sequence for The Odyssey Dispatch (Turbomindz newsletter). Email 1 (sent immediately on signup): Subject: "Welcome, Traveler." Body: Cosmo introduces himself, explains the Turbomindz odyssey in 150 words, gives the reader a free digital wallpaper link, and invites them to browse the collection on OpenSea. Email 2 (sent 3 days later): Subject: "What's*

your philosophy?" Body: Nova asks the reader which of the 9 philosophical themes resonates most with them, briefly describes each theme in 1 sentence, links to the "9 Questions" free PDF on Gumroad, and invites them to join Discord. Email 3 (sent 7 days later): Subject: "The Village is Waiting." Body: Stella explains the community aspect, what Collectors get access to, why the witnessed economy matters, and ends with a clear CTA to purchase an NFT on OpenSea and join Discord. Each email: 150-200 words, Turbomindz voice, in the voice of the named character. Include a P.S. line in each. Format in plain text (Buttondown uses Markdown).

Step 6B: Medium Account

- Go to https://medium.com > "Get Started"
- Sign up with Google (hugogaona@gmail.com)
- Display name: Turbomindz
- Bio: "Philosophical art at the intersection of digital and physical. 888 scenes. 39 universes. One odyssey."
- Apply for the Medium Partner Program (requires a Medium membership at $5/mo, or free 100-follower threshold)
- Write first article: (see prompt below)

PROMPT: First Medium Article

Write a 1,500-word Medium article titled "What Ancient Philosophers Can Teach Us About Digital Art." Structure: (1) Hook: a surprising connection between Plato's Theory of Forms and NFTs (200 words), (2) Section: "The Cave Wall Was the First Canvas" — how art has always been about capturing ideas, not just images (300 words), (3) Section: "Socrates Never Owned a JPEG" — what ownership of art meant in classical philosophy vs. today (300 words), (4) Section: "The Marriage of Soul and Body" — introduce the phygital art concept of permanently linking digital and physical art, reference the Turbomindz marriage system (300 words), (5) Section: "What Would Aristotle Collect?" — imagine ancient philosophers encountering NFT art, connect to the 9 Turbomindz themes (200 words), (6) Closing: invite readers to explore Turbomindz on OpenSea, mention the 5 easter eggs in every scene, link to Discord (200 words). Include 3-4 PD-verified quotes woven naturally into the text. SEO: target keywords "philosophical art NFT" and "phygital art." Tags: Philosophy, NFT, Digital Art, Art, Blockchain. Voice: Turbomindz voice — intellectual but accessible, witty but warm.

DAY 7: Website (Carrd.co Landing Page)

Step 7A: Carrd.co Account + Build

- Go to https://carrd.co > "Sign Up"
- Plan: Pro Standard ($19/year) — required for custom domain, forms, and embeds
- After signup, click "New Site" > choose a blank template (dark theme)

Page Sections to Build (top to bottom):

SECTION 1 — HERO: Full-width background image (Cosmo at the golden bridge). Overlay text: headline + subline + 2 CTA buttons. Primary CTA: "Browse the Collection" (links to OpenSea). Secondary CTA: "Join the Discord" (links to Discord invite).

SECTION 2 — WHAT IS TURBOMINDZ: 3-column layout. Column 1: "888 Scenes" with description. Column 2: "39 Universes" with description. Column 3: "4 Travelers" with description.

SECTION 3 — HOW TO JOIN: 3-step numbered process. Step 1: Browse. Step 2: Collect. Step 3: Enter the Village.

SECTION 4 — FEATURED ART: Carousel or grid of 3-6 NFT images with titles.

SECTION 5 — THE MARRIAGE CONCEPT: Text + image explaining phygital art.

SECTION 6 — NEWSLETTER SIGNUP: Email form connected to Buttondown (embed code).

SECTION 7 — LINKS: Buttons to OpenSea, Discord, Patreon, Ko-fi, Gumroad, Instagram, Twitter, Pinterest, Medium.

SECTION 8 — FOOTER: Motto + tagline + copyright.

Carrd Settings:

- Custom Domain: Connect turbomindz.com (or turbomindz.art if .com is taken)
- Domain setup: In Carrd > Settings > Custom Domain > enter your domain > Carrd provides DNS records (CNAME or A record) > update at your domain registrar (Namecheap, etc.)
- Background color: #0A0A0A (rich black)
- Text color: #F5F1E8 (warm white)
- Accent color: #D4AF37 (gold)
- Font: Use a serif for headings (Carrd offers Playfair Display) and sans-serif for body
- Enable SSL (automatic with Carrd Pro)

Alternative Hosting Option: Vercel + Next.js

If you prefer a more polished site that becomes the actual app later, skip Carrd and build a simple Next.js landing page. This takes more time (2-4 hours with Claude Code) but creates the foundation for the full app. Vercel hosting is free. Domain connection is free. This approach means the website and app share the same codebase from Day 1.

PROMPT: Complete Website Copy (All Sections)

> *Write all the copy for the Turbomindz landing page website. The website is dark-themed (black background, warm white text, gold accents). Write copy for each section:*
>
> *HERO: Headline (max 10 words, philosophical question), Subline (max 20 words mentioning 888 scenes/39 universes/4 characters), CTA 1 text: "Browse the Collection", CTA 2 text: "Join the Village"*
>
> *WHAT IS TURBOMINDZ: Three columns. Column 1 title: "888 Scenes" + 25-word description. Column 2 title: "39 Universes" + 25-word description. Column 3 title: "4 Travelers" + 25-word description.*
>
> *HOW TO JOIN: Section title (5 words). Step 1: "Browse" + 15-word description. Step 2: "Collect" + 15-word description. Step 3: "Enter" + 15-word description.*
>
> *MARRIAGE CONCEPT: Title (6 words). Body paragraph (80 words) explaining phygital art marriage in plain language.*
>
> *NEWSLETTER: Heading: "The Odyssey Dispatch". Subheading (12 words). Microcopy below the email field (8 words).*

FOOTER: Motto. Tagline: "Create. Connect. Trade Fair." Copyright line.

Voice: 35% witty, 30% warm, 20% curious, 15% artfully simple. Never corporate. Use "Collect" not "Buy," "Village" not "Community," "Traveler" not "User."

PROMPT: Midjourney: Website Hero Background

A vast cinematic scene of a small claymation astronaut with orange boots and fishbowl helmet standing at the edge of a golden bridge connecting 39 floating islands, each island a different miniature universe with a unique art tradition, deep teal cosmos background with gold nebula swirls, warm candlelit glow emanating from each island, philosophical symbols floating like constellations, plasticine stop-motion Pixar meets Aardman aesthetic, low angle dramatic composition, volumetric golden light rays, warm rich textures, museum-quality detail --ar 16:9 --v 7 --s 350 --q 2

PROMPT: Midjourney: Website Marriage Section

A ceremonial claymation scene showing a glowing NFT screen floating beside a physical oil painting on an easel, golden threads connecting the two forming a heart shape, surrounded by clay witness characters, warm candlelight, deep teal background with gold accents, museum gallery setting, ornate gold frame elements, "The NFT is the soul. The art is the body." subtly carved in gold below, plasticine stop-motion Pixar meets Aardman style --ar 2:1 --v 7 --s 300 --q 2

PROMPT: Midjourney: Character Portraits for Website (4 images)

Generate 4 separate prompts for Turbomindz character portraits:

1. COSMO: Full body claymation astronaut, orange boots, fishbowl helmet, curious wide eyes, one hand reaching forward, deep teal space suit with gold accents, warm studio lighting, dark background --ar 3:4 --v 7 --s 300 --q 2

2. NOVA: Full body claymation alien guide, three floating golden orbs around head, gold infinity pendant, calm knowing expression, gold and amber palette, ancient wise presence --ar 3:4 --v 7 --s 300 --q 2

3. STELLA: Full body claymation female, blue-to-purple gradient hair, gold star earring, constellation freckles, creative pose, artist smock, warm rose and purple tones --ar 3:4 --v 7 --s 300 --q 2

4. LUNA: Full body claymation character, worn leather notebook, mismatched colorful socks, single violet streak in dark hair, contemplative pose, deep purple and indigo tones --ar 3:4 --v 7 --s 300 --q 2

All: plasticine stop-motion Pixar meets Aardman aesthetic, warm lighting, dark background, museum-quality detail.

PHASE 1: NFT SALES + COMMUNITY GROWTH (Days 8-30)

Daily Operations Schedule (15-30 min/day)

Time	Task	Duration	Platform
Morning	Post daily NFT scene reveal on Instagram	5 min	Instagram
Morning	Post same reveal as tweet on Twitter/X	2 min	Twitter
Morning	Post announcement in Discord #announcements	3 min	Discord
Morning	Pin 3 images to themed Pinterest boards	5 min	Pinterest
Evening	Respond to comments/DMs across platforms	5 min	All
Evening	List 3 new NFTs on OpenSea (until all 150 done)	10 min	OpenSea

NFT Listing Batch Schedule

Days 8-14: List 15-20 NFTs/day to reach 150 total listed by Day 14. Use the /week production command to generate metadata, descriptions, and Midjourney prompts in batches of 21 (one week of scenes).

After all 150 are listed: Continue generating 3 new NFTs/day using the /week command (21/week). At this pace, all 888 scenes complete in ~42 weeks.

Pricing Tiers (MATIC):

Tier	Scene Range	Price (MATIC)	Approx USD
Genesis	TM-001 to TM-010	26	~$15-25
Standard	TM-011 to TM-888	40	~$25-40
Character Intros	TM-006, TM-016, TM-050	60	~$35-55
Key Scenes	Selected story beats	80	~$45-75
Milestones	TM-100, 200, 300, etc.	100	~$55-90
Act Climax	TM-222, 334, 444, 666	130	~$75-120
Finale	TM-888	260	~$150-240

Weekly Content Batching (Sunday, 2-3 hours)

Every Sunday, run the /week command in Claude to generate the full content package for the coming week. This produces 79 content pieces: 21 NFT packages (metadata + Midjourney prompt + OpenSea listing), 14 Instagram posts with captions, 14 Twitter posts, 7 Discord announcements, 21 Pinterest pins, 1 Medium article draft, and 1 newsletter draft.

Then batch all Midjourney prompts (~56 images) and run them in Midjourney. Schedule Instagram posts using Buffer (free tier: 10 scheduled posts) or Later. Queue Pinterest pins. Save Discord announcements for daily copy-paste.

PROMPT: Weekly Content Generation Command

> *This is the /week command. Type "/week [N]" in Claude where N is the week number. For example, "/week 2" generates all content for Week 2 (Scenes TM-022 to TM-042). The command*

produces: 21 NFT production packages (metadata JSON + Midjourney prompt + OpenSea listing description), 14 Instagram posts (7 reveals + 7 educational), 14 Twitter posts, 7 Discord announcements, 21 Pinterest pins, 1 Medium article, 1 YouTube script, 1 newsletter draft. See the WEEKLY_PRODUCTION_COMMAND.md document for the complete specification and output structure.

Community Engagement Tactics (Days 8-30)

Week 2: First Easter Egg Hunt

PROMPT: Easter Egg Hunt Announcement (Discord + Instagram)

Write an announcement for the first Turbomindz Easter Egg Hunt. Post on Discord and Instagram. Rules: (1) 5 easter eggs are hidden in scene TM-001 "The Cathedral of First Questions," (2) First person to find and name all 5 in Discord #easter-egg-hunts wins a free Gumroad product of their choice, (3) Post screenshots of where you think the eggs are, (4) Hunt runs for 7 days. Write the Discord version (with markdown formatting) and the Instagram version (with hashtags, under 2200 characters). Voice: exciting, playful, Cosmo's personality. Include the hint: "One egg is a foreshadow. One is a callback. One is a tradition. One is a symbol. One is a signature."

Week 3: First Philosophy Challenge

PROMPT: Philosophy Challenge #1 Announcement

Write the announcement for Turbomindz Philosophy Challenge #1. Theme: Classical Foundations. Question: "What is virtue, and can it be taught?" Rules: (1) Post your answer in Discord #philosophy-corner (200 words max), (2) Entries open for 5 days, (3) Community votes on best answer, (4) Winner gets their response featured in the description of the next NFT scene. Write versions for Discord (markdown), Instagram (caption + hashtags), and Twitter (280 chars). Voice: thoughtful, inviting, Nova's personality (pattern-seeking, wise).

Week 4: Build in Public Post

PROMPT: Build in Public Twitter Thread

Write a 5-tweet Twitter thread about the Turbomindz project under the #BuildInPublic hashtag. Thread: Tweet 1: What is Turbomindz and what makes it different (hook), Tweet 2: The numbers (888 scenes, 39 universes, 4 characters, 150 NFTs listed), Tweet 3: The marriage concept (phygital art, one sentence), Tweet 4: Progress so far (X NFTs sold, Y Discord members, Z newsletter subscribers — use placeholders), Tweet 5: What's next (the app, the marketplace, the first marriage ceremony) + CTA to OpenSea and Discord. Each tweet under 280 characters. Use 1-2 emojis per tweet. Include relevant hashtags in the final tweet.

PHASE 2: FAN FUNDING + PRODUCT ENGINE (Days 31-60)

New Product Launches (1-2 per week)

Week 5: Additional Gumroad Products

PROMPT: Gumroad Product: Art Style Flashcards PDF ($3)

Write the content for a 20-card digital flashcard set called "The Art Explorer's Flashcards: 20 Art Styles That Changed the World." Each card has: (1) Art style name (e.g., Renaissance, Baroque, Sumi-e, Art Nouveau, Surrealism, etc.), (2) Time period, (3) Key characteristics (3 bullet points), (4) Most famous practitioner, (5) How Turbomindz interprets this style (1 sentence connecting it to a specific universe). Include 20 diverse art styles covering both Western and Eastern traditions. Format: each card fits on a half-page. Design note: dark background (#0D3D47), gold headers (#D4AF37), warm white text (#F5F1E8). Include Turbomindz branding footer on each card.

PROMPT: Gumroad Product: Phone Wallpaper Pack ($2)

Generate 6 Midjourney prompts for a phone wallpaper pack (1080x1920px / 9:16 aspect ratio). Each wallpaper features a different Turbomindz universe with a philosophical quote overlay space. Prompts:
1. U1 Alchemical Renaissance: golden cathedral interior with mystical symbols --ar 9:16 --v 7 --s 300 --q 2
2. U5 Taoist Flowing Silk: misty mountain landscape with silk ribbons --ar 9:16
3. U14 Gothic Cathedral of Doubt: dramatic cathedral interior with light rays --ar 9:16
4. U15 Islamic Pattern Mathematics: geometric patterns in gold and teal --ar 9:16
5. U33 Neon Community Nexus: futuristic neon village scene --ar 9:16
6. The Village: all 4 characters together at golden hour --ar 9:16
All: claymation plasticine Pixar meets Aardman style, warm textures, museum quality, philosophical atmosphere, with clear space at top or bottom for quote text overlay.

Week 6-7: Printful Merch Store

- Go to https://www.printful.com > "Sign Up Free"
- Connect to an Etsy or standalone storefront (Printful has its own)
- Create 5 initial products using NFT artwork:

Product	Art Used	Target Price	Printful Base Cost
11oz Ceramic Mug	TM-001 Cathedral	$18	~$7-8
Unisex T-Shirt	Cosmo character	$28	~$12-14
Canvas Tote Bag	Marriage ceremony art	$22	~$10-12
Poster (18x24)	TM-001 or hero image	$25	~$8-10
Sticker Pack (3)	Character portraits	$8	~$2-3

Week 8: First Amazon KDP Book

PROMPT: KDP Book: "The Odyssey Companion" Chapter 1

Write Chapter 1 (3,000 words) of "The Odyssey Companion: A Philosophical Journey Through 39 Universes" by Turbomindz. This is a non-fiction/philosophy book for Amazon KDP. Chapter 1: "What If the Greatest Adventure Was Understanding Yourself?" Structure: (1) Opening narrative introducing Cosmo arriving at the Cathedral of First Questions (500 words, vivid, philosophical fiction), (2) "The Classical Tradition" — explain what Classical Foundations philosophy is and why it still matters (800 words), (3) "Socrates at the Door" — the story of Socrates and the examined life, connected to TM-001 (600 words), (4) "5 Questions the Ancients Asked First" — five

philosophical questions with brief explanations (600 words), (5) "Your Turn" — reflection questions for the reader (500 words). Include 4-5 PD-verified quotes. Voice: accessible philosophy — like a friendly professor in a coffee shop, not a textbook. This chapter must make someone who has never studied philosophy feel welcome and excited. Target audience: creative adults aged 25-45 who are curious about philosophy but intimidated by academic writing. Book specs: 6x9 inch trim, 12pt serif font, target 10-12 chapters, ~30,000 words total, retail price $14.99.

Newsletter Weekly Production

PROMPT: Weekly Newsletter Template (The Odyssey Dispatch)

Write Issue #[N] of The Odyssey Dispatch (Turbomindz weekly newsletter). Follow this exact structure:

1. COSMO'S OPENING (100 words): A personal, warm opening from Cosmo about this week's theme or a philosophical observation. Conversational, like a letter from a friend.

2. THIS WEEK'S SCENES (150 words): Recap the 3 featured scenes from this week with titles, one-sentence descriptions, and links to OpenSea listings. Highlight the top scene.

3. NOVA'S PATTERN (100 words): Nova notices a philosophical pattern connecting this week's scenes. Insightful, connecting dots the reader might have missed.

4. FEATURED PRODUCT (75 words): Highlight one Gumroad/Printful product with a brief description and link.

5. COMMUNITY HIGHLIGHT (75 words): Feature a community moment from Discord (a great comment, an easter egg found, a philosophy challenge response).

6. EASTER EGG HINT (50 words): A cryptic hint about an easter egg in next week's upcoming scenes.

7. SIGN-OFF: Cosmo's warm closing + motto.

Total: ~650 words. Voice: warm, personal, curious. Format: Markdown (for Buttondown). Include [LINKS] placeholders where URLs go.

PHASE 3: SCALE + BETA PREP (Days 61-90)

Scale Based on Data

By Day 60, you have 8 weeks of data. Review your KPI tracker and identify the top 3 revenue streams by actual earnings. Double down on those. Reduce effort on anything generating zero revenue after 8 weeks.

Month 3 Targets:

Metric	Target
NFTs Listed on OpenSea	300+
NFTs Sold	10-30
Discord Members (Collectors)	20-50
Patreon Subscribers	15-40
Newsletter Subscribers	100-200
Gumroad Products Live	10+
Instagram Followers	200-500
Twitter Followers	100-300
Monthly Revenue	$280-820

First Marriage Ceremony Event

This is the signature pre-app event. You perform the first public "marriage" between a Turbomindz NFT and a physical artwork, documenting the entire process for content.

Step-by-Step:

- 1. Select a physical artwork you own (painting, drawing, sculpture, print)
- 2. Select a Turbomindz NFT that thematically matches the physical piece
- 3. Photograph the physical artwork from 6 angles (Front, Back, Top, Bottom, Left, Right) + 2 detail shots
- 4. Post a "Marriage Announcement" across all platforms (see prompt below)
- 5. Document the "ceremony" on Instagram Stories and Discord
- 6. Update the NFT metadata on OpenSea to change Marriage Status from "Unmarried" to "Married to [Art Title]"
- 7. Post the completed marriage as proof-of-concept content
- 8. Until the app has the marriage smart contract, record the marriage in a Google Sheet and on IPFS (Pinata) as a JSON file linking the NFT token ID to the physical art photos and description

PROMPT: First Marriage Ceremony Announcement

> *Write a multi-platform announcement for the first-ever Turbomindz marriage ceremony. The NFT being married is [TM-XXX — Scene Title] and the physical artwork is [describe your physical piece]. Write versions for: (1) Instagram (300 words, emotional, ceremonial tone, include hashtags), (2) Twitter thread (5 tweets telling the story), (3) Discord #announcements (250 words with embeds and emojis), (4) Medium article (800 words documenting the full ceremony process, including why this matters for the future of art ownership). Voice: reverent, warm, historic — this is a milestone moment. Reference the motto: "The NFT is the soul. The art is the body." Explain that this is the first of what will be thousands of marriages when the app launches. Include a CTA inviting others to start thinking about what physical art they would marry to their Turbomindz NFTs.*

Beta Tester Recruitment

When Mega-Prompt 1-2 are complete (basic app with gallery and navigation), recruit 10-20 Discord Collectors as beta testers.

PROMPT: Beta Tester Recruitment Message (Discord)

> *Write a Discord announcement recruiting beta testers for the Turbomindz app. Requirements: must be a Collector (own at least 1 Turbomindz NFT), must have 10 minutes per week for testing, must provide feedback in #beta-feedback channel. Benefits: "Founding Member" badge (permanent, cannot be earned later), name in the app credits, first access to all new features, direct input on design decisions. Limit: 20 spots. To apply: react to this message with a specific emoji. Voice: Cosmo — excited, inclusive, grateful. Emphasize that their feedback will literally shape the app.*

ONGOING OPERATIONS: DAILY/WEEKLY/MONTHLY CHECKLISTS

Daily Checklist (15-30 minutes)

Task	Platform	Time	Notes
Post NFT scene reveal	Instagram + Twitter	5 min	Pre-made from /week batch
Post Discord announcement	Discord	3 min	Copy-paste from /week batch
Pin 3 images	Pinterest	3 min	Pre-made from /week batch
List 3 new NFTs	OpenSea	10 min	Metadata pre-made from /week
Respond to comments/DMs	All	5 min	Prioritize Discord + Instagram
Check sales dashboard	OpenSea + Gumroad	2 min	Log in KPI tracker

Weekly Checklist (Sunday, 2-3 hours)

Task	Time	Notes
Run /week [N] command in Claude	30 min	Generates 79 content pieces
Run Midjourney prompts (~56 images)	45 min	Batch all image prompts
Schedule Instagram posts (Buffer/Later)	15 min	Schedule 14 posts for the week
Compile and send newsletter	20 min	Edit the auto-generated draft
Review Discord engagement	10 min	Respond to threads, start discussion
Create 1 new Gumroad product	30 min	Use Claude to generate content
Update KPI tracker spreadsheet	10 min	Log all metrics

Monthly Checklist (1st of each month, 1 hour)

Task	Notes
Revenue report: tally all income across all platforms	OpenSea, Patreon, Ko-fi, Gumroad, Medium, Printful
Review top 3 revenue streams, plan to double down	Cut anything earning $0 after 8 weeks
Publish 1 Medium article	SEO-optimized, philosophy + art topic
Review and optimize OpenSea listings	Update descriptions, adjust pricing if needed
Post Patreon-exclusive content	1 behind-the-scenes post for Pattern Seeker+ tiers
Plan next month's product launches	2-4 new Gumroad products per month
Post transparency report to Discord	Revenue, community size, NFTs sold, plans

COMPLETE COST SUMMARY

Item	Monthly Cost	Annual Cost	Notes
Midjourney (Basic)	$10/mo	$120/yr	Art generation for NFTs and content
Carrd Pro Standard	$1.58/mo	$19/yr	Landing page website with custom domain
Domain (Namecheap)	$0.92/mo	$11/yr	turbomindz.com or similar
Buttondown (free tier)	$0	$0	Up to 100 subscribers
OpenSea	$0	$0	0% marketplace fee, free to list on Polygon
Guild.xyz	$0	$0	Token gating, completely free
Discord	$0	$0	Free server
Patreon	$0 (% of earnings)	-	10% platform fee on earnings only
Ko-fi	$0	$0	0% fee on donations
Gumroad	$0 (% of sales)	-	10% + $0.50 per sale
Printful	$0 (% of sales)	-	Print on demand, no upfront cost
Buffer (free tier)	$0	$0	10 scheduled posts
Pinterest	$0	$0	Free business account
Medium	$0	$0	Free to publish (Partner Program optional)
TOTAL FIXED COSTS	$12.50/mo	$150/yr	Everything else is % of revenue

Total fixed monthly cost: approximately $12.50/month. With Midjourney: $22.50/month. All other costs are percentage-based and only apply when you earn money.

PRE-APP USER JOURNEY (Manual Navigation)

Until the app launches, users navigate manually between platforms. This section maps the exact user journey a new person follows to become a Turbomindz Collector.

Step 1: Discovery

User finds Turbomindz through Instagram, Twitter, Pinterest, Medium, or word of mouth. They see a philosophical art scene with a compelling caption and a link.

Step 2: Landing Page

User clicks the link and arrives at turbomindz.com (Carrd). They read the hero section, understand the concept (888 scenes, marriage, community), and see the two CTAs: "Browse the Collection" and "Join the Discord."

Step 3: Browse on OpenSea

User clicks "Browse the Collection" and is taken to the Turbomindz Odyssey collection on OpenSea. They browse scenes, read descriptions, discover easter eggs, and find a scene they connect with.

Step 4: Purchase

User connects their MetaMask wallet to OpenSea (if they do not have one, the #how-to-buy Discord channel guides them). They purchase a Turbomindz NFT on Polygon using MATIC. Transaction completes in seconds with near-zero gas fees.

Step 5: Join Discord

User returns to turbomindz.com or the Linktree and clicks "Join the Discord." They enter the Discord server and see public channels. They visit the Guild.xyz verification page (linked in #welcome), connect their wallet, and Guild.xyz verifies their NFT ownership. The "Collector" role is auto-assigned. All gated channels unlock.

Step 6: Participate

User explores Discord: joins philosophy discussions, participates in easter egg hunts, browses the marketplace channel, and engages with the community. They can support the project further through Patreon or Ko-fi.

Step 7: Marriage (Optional)

User wants to marry their NFT to a physical artwork. They post in #marriage-requests with 6+ photos and a description. Founder reviews, approves, updates NFT metadata on OpenSea, and records the marriage. The user's NFT is now a phygital asset.

"The NFT is the soul. The art is the body. The community is the village.
The story is the mirror. The notebook was always open."

Create. Connect. Trade Fair.
