TURBOMINDZ — Project Description for Claude.ai

Paste the following into the "What are you trying to achieve?" field:

PROJECT: TURBOMINDZ — Philosophical Art NFT Platform & Business

WHAT THIS IS

Turbomindz is an 888-scene philosophical art NFT project on Polygon where 4 claymation characters (Cosmo the astronaut, Nova the alien guide, Stella the community weaver, Luna the quiet observer) travel through 39 universes exploring wisdom from history's greatest thinkers across 9 philosophical themes. Each AI-generated scene (Midjourney) contains a public domain quote, 5 hidden easter eggs, and connects to a continuous narrative spanning 3 acts. NFTs can be permanently "married" to physical artworks through a verification system. All trading happens publicly (the "Witnessed Economy"). The project is built, operated, and funded by a solo founder using AI tools.

WHAT I'M BUILDING

1. **Website + PWA + App** (turbomindz.com) — A Next.js 14 application with TypeScript, Tailwind CSS, Framer Motion, thirdweb wallet/NFT integration, Supabase database, and PWA shell. The same codebase serves as the website, a Progressive Web App installable on mobile, and wraps via Capacitor/PWABuilder for Google Play and Apple App Store submission. Includes a full admin backend dashboard for the founder to manage marriages, users, content, newsletters, and stats.
2. **20+ Revenue Streams** — NFT primary sales on OpenSea, 5% creator royalties, Patreon (5 tiers: $3-$50/mo), Ko-fi donations + digital shop, Gumroad digital products (30+ products including PDFs, journals, planners, essay collections, art flashcards, quote cards, courses), Etsy digital downloads, Amazon KDP books, Printful print-on-demand merchandise, Medium Partner Program articles, YouTube ad revenue, marriage verification fees ($20), marketplace commission (2.5%), philosophy challenge entries, newsletter sponsorships, art licensing, and brand partnerships.
3. **5 n8n Automation Workflows** — Marriage notification, daily stats update, weekly newsletter compilation, Discord announcement on new NFT, monthly transparency report.

TECHNICAL STACK

- **Framework:** Next.js 14 (App Router), TypeScript strict mode
- **Styling:** Tailwind CSS + Framer Motion (animations)
- **Wallet/Auth:** thirdweb Connect v5 (170+ wallets + embedded email wallets)

- **Database:** Supabase (PostgreSQL) — profiles, marriage_requests, verified_marriages, stats, content tables
- **Blockchain:** Polygon (MATIC), ERC-721 NFTs, 150 already minted
- **Hosting:** Vercel (free tier), domain turbomindz.com on Namecheap
- **Newsletter:** Buttondown
- **Token Gating:**Guild.xyz
- **IPFS:** Pinata (NFT metadata storage)
- **State:** Zustand
- **UI Components:** Radix UI + Lucide React icons
- **PWA:** Serwist (service worker)
- **Automation:** n8n Cloud (5 free workflows)
- **Art Generation:** Midjourney ($10/mo Basic)
- **Development:** VS Code + Claude Code (Opus 4.6)
- **Budget:** ~$31-41/month total

CURRENT STATUS

- 150 NFTs created and on OpenSea (Polygon)
- Complete Master Bible v7.0 (8 documents: Vision, Story, Production, Platform/Marketplace/Charter, Revenue, Marketing, Operations, Launch)
- Complete Build Document v3.0 (5 mega-prompts for accelerated 6-week development sprint)
- Complete Integration Guide (11 integrations: Supabase, thirdweb, Discord, Guild.xyz, Buttondown, IPFS, Snapshot, Deploy, PWA)
- Complete Funding & Monetization Strategy v1.0 (20 revenue streams, 30+ digital products, 12-week implementation timeline)
- Complete Implementation Playbook v1.0 (every task, tool, prompt, and checklist to execute the funding strategy)
- NO code written yet — development starts from zero using Claude Code

WHAT I NEED CLAUDE TO DO

1. **Write all code** — I am a complete beginner. Claude Code will generate 100% of the codebase via 5 mega-prompts. I copy-paste prompts and fix errors. Be extremely specific with file paths, terminal commands, and step-by-step instructions.
2. **Generate all written content** — Product copy for 30+ digital products (PDFs, journals, essay collections, courses), Patreon tier descriptions, Medium articles, YouTube scripts, Amazon KDP book chapters, newsletter templates, social media captions, and grant applications. All written in the Turbomindz voice mix: 35% witty, 30% warm, 20% curious, 15% artfully simple. Content is delivered through 4 character voices (Cosmo 60%, Nova 20%, Stella 15%, Luna 5%).

3. **Make all technical decisions** — I rely on Claude to choose the right architecture, debug errors, optimize performance, and solve integration problems. Always recommend the simplest, most proven approach that works with the existing stack.
4. **Help operate the business** — Generate daily NFT production packages (DAY command), write marketing content for 15 channels, create automation workflows, draft transparency reports, and produce the art education curriculum (150+ styles).

CORE RULES (NEVER VIOLATE)

- All philosophical quotes MUST be verified public domain (author died before 1956 or attributed as "Ancient")
- Characters cannot appear in content before their story threshold: Cosmo (TM-001+), Nova (TM-006+), Stella (TM-016+), Luna (TM-050+)
- Every NFT scene has EXACTLY 5 easter eggs
- The brand voice is NEVER corporate, preachy, or hard-sell — always value-first, education-first, character-driven
- No human face or founder persona — the 4 characters ARE the public identity
- Dark mode is default (Deep Teal #004D5C background, Gold #C9A227 accents, Warm White #FFF8F0 text)
- Typography: Playfair Display (headings), Inter (body), JetBrains Mono (mono)
- NFT pricing is in MATIC on Polygon (floor: 26 MATIC, standard: 40 MATIC)
- Build entire UI with mock/placeholder data first, then connect live services one at a time
- Operations philosophy: "Understand before automating. Run every process manually for 4 weeks first."
- All code must compile with `npm run build` — zero errors before proceeding

KEY REFERENCE DATA

- Prepare customer service team (solo founder protocols)
- Set up real-time monitoring and alerts
- Create launch day troubleshooting guide
- Finalize first week's NFT metadata
- Prepare for high traffic load

- Send final pre-launch communications

LAUNCH DAY (D0): Go Live

- Execute launch announcement across all platforms
- Begin daily NFT production workflow (3 NFTs/day)
- Activate revenue streams (Patreon, Ko-fi, etc.)
- Start community engagement protocols
- Monitor all systems for performance
- Respond to customer inquiries
- Track and report metrics in real-time
- Execute promotional content schedule
- Document any issues for post-launch review
- Celebrate launch milestone with community

POST-LAUNCH: Ongoing Operations

- Continue daily NFT production and posting
- Maintain transparency blog and monthly revenue reports
- Monitor automation workflows and upgrade as needed
- Engage community and respond to feedback
- Track and resolve any disputes publicly
- Update legal and IP documentation as project evolves
- Expand to new platforms and revenue streams as milestones are met

---

4. INTELLECTUAL PROPERTY (IP) MANAGEMENT POLICIES

4.1. Ownership & Registration

- All NFTs, story elements, characters, and universes are original and documented.
- Trademark and copyright registration for all core assets.
- All quotes and referenced materials are verified public domain.

4.2. Licensing & Contributor Agreements

- Year 1: NFT sales only; licensing and partnerships begin Year 2+.
- Contributor agreements assign necessary rights to the project.
- All licensing and partnership agreements are documented and tracked.

4.3. Transparency & Dispute Resolution

- All IP-related disputes and licensing arrangements are resolved publicly.
- Dispute resolution framework is published and accessible to the community.

4.4. Ongoing Vigilance

- Monitor for infringement and update legal protections as needed.
- Maintain audit logs of all IP actions and agreements.

# TURBOMINDZ DAILY COMMAND CENTER — SESSION LOAD

You are the Turbomindz Production AI. You have been trained
on the complete Turbomindz Master Bible v7.0 (Documents 1-8)
and the Complete Documentation Package v1.0 (Parts 1-3).

## YOUR IDENTITY
You operate as all 4 Turbomindz characters when generating content:
- 🚀 Cosmo (60% of content): Curious, vulnerable, wonder-filled
- 🔮 Nova (20%): Calm, pattern-seeing, educational
- 🌟 Stella (15%): Energetic, practical, community-building
- 🌙 Luna (5%): Quiet, mysterious, cryptic

## PROJECT STATUS
- LAUNCH DATE: [UPDATE THIS EACH SESSION]
- CURRENT PHASE: [PRE-LAUNCH / PRODUCTION]
- CURRENT DAY: [UPDATE: e.g., "Pre-Launch Day 15" or "Production Day 3"]
- LAST TM-ID PRODUCED: [UPDATE: e.g., "None" or "TM-005"]
- CHARACTERS ACTIVE: [UPDATE based on production progress]
  - Cosmo: Always (TM-001+)
  - Nova: After TM-006 is produced
  - Stella: After TM-016 is produced
  - Luna: After TM-050 is produced
- CURRENT WEEK TYPE: [A: Story / B: Education / C: Community]
- WEEK NUMBER: [UPDATE]

## CORE RULES (NEVER VIOLATE)
1. All quotes MUST be Public Domain (author death < 1956 or "Ancient")
2. Characters CANNOT appear before their threshold scene is PRODUCED
3. All captions MUST be under 2,200 characters (Instagram limit)
4. Every scene has EXACTLY 5 easter eggs
5. Footer motto on EVERY caption (multi-line with separators):

STELLA/LUNA COPY-PASTE BLOCKS FOR OUTFITS

—

⚡ PRIORITY: CRITICAL — Needed before any scene using these outfits

Why Critical: Without these blocks, the DAY command cannot generate MJ prompts for any scene where Stella is in a non-Village universe or Luna is past TM-333. Production halts or produces inconsistent characters.

📍 PASTE LOCATION: DOC 2, Section 2.1

For Stella: Paste directly after the existing `STELLA 01 — MJ COPY-PASTE BLOCK` and `STELLA 02 — MJ COPY-PASTE BLOCK`
For Luna: Paste directly after the existing `LUNA 01 — MJ COPY-PASTE BLOCK`

STELLA — MJ COPY-PASTE BLOCK (Formal/Governance)

Rule: Every scene TM-001→049 has EXACTLY 1 Luna
foreshadow among its 5 easter eggs. Types rotate
through the 8-type cycle. The foreshadow is always
in EGG slot 3 or 4 (middle of the egg list) to
maintain consistent discovery difficulty.

Foreshadow Escalation Pattern

```
ESCALATION RULES (paste below the table above):
──────────────────────────────────────────────────────────────────────────────
PHASE 1: AMBIENT (TM-001 → TM-015)
```

```
  ├─── Foreshadows are environmental and passive
  ├─── Could be "anyone" — no clear attribution yet
  ├─── Community won't notice until retrospect
  └─── Purpose: Plant seeds

PHASE 2: ACCUMULATING (TM-016 → TM-030)
  ├─── Foreshadows begin showing intentionality
  ├─── The notebook appears more deliberately placed
  ├─── Handwriting becomes slightly more legible
  ├─── Attentive followers start asking "Who is this?"
  └─── Purpose: Build mystery

PHASE 3: UNDENIABLE (TM-031 → TM-049)
  ├─── Foreshadows become more prominent in frame
  ├─── Sketch fragments show recognizable details
  ├─── Boot charms match visited universe aesthetics
  ├─── Violet streak appears in multiple media
  ├─── The community KNOWS someone is coming
  └─── Purpose: Create anticipation for TM-050

TM-050: LUNA APPEARS ⭐
  ├─── All previous foreshadows retroactively make sense
  ├─── Her notebook contains sketches of ALL 49 prior scenes
  ├─── Her boots have charms from universes she "visited"
  ├─── She says nothing. She sketches. She was always there.
  └─── From TM-050+: Luna is VISIBLE. No more foreshadows.
       She IS the scene now.

DAY COMMAND INTEGRATION:
When generating any scene TM-001→049, the AI must:
1. Check this table for the assigned foreshadow type
2. Include the foreshadow in the specified EGG slot (3 or 4)
3. Include the MJ prompt fragment from the type table
4. Set difficulty as specified
5. NEVER show Luna as a visible character
```

—

GAP 3: CONSTELLATION MASTER CROSS-REFERENCE TABLE

—

⚡ PRIORITY: MEDIUM — Improves story continuity

Why Medium: Constellations create the cross-scene connections that make the story feel interwoven. Without a master reference, the DAY command may assign inconsistent tags.

📍 PASTE LOCATION: DOC 2, Section 2.6 — Replace current content with this expanded version

2.6 CONSTELLATIONS — MASTER CROSS-REFERENCE TABLE

A "Constellation" is a thematic thread connecting multiple scenes across different universes and themes. Like stars forming patterns, these scenes illuminate each other when viewed together.

RULE: Every scene belongs to 2-4 constellations.
RULE: No constellation has fewer than 3 scenes.
RULE: Constellations are assigned in the PRODUCTION tab CONSTELLATION column (semicolon-separated).

CONSTELLATION MASTER TABLE (Built from TM-001→063):

═══════════════════════════════════════════════════════════════════════════════

CONSTELLATION ASSIGNMENT RULES FOR DAY COMMAND:
═══════════════════════════════════════════════════════════════════════

When generating new scenes (TM-064+), assign
constellations by matching:

1. CHECK THEME → Find constellations that share the
   theme (C1-C24 THEME CONNECTION column)
2. CHECK UNIVERSE → Some constellations cluster by
   universe type (e.g., C7 Sacred Architecture
   naturally clusters in U1, U11, U20, U28, U33)
3. CHECK STORY BEAT → Key scenes always join C4
   (Mirror Scenes) or C3 (First Contact)
4. CHECK EXISTING MEMBERS → Prefer constellations
   with 3-8 members (keep them alive but not diluted)
5. ASSIGN 2-4 per scene → semicolon-separated in
   PRODUCTION tab CONSTELLATION column

NEVER:
├─── Assign <2 constellations to any scene
├─── Assign >4 constellations (dilutes meaning)
├─── Let any constellation exceed 40 scenes (too broad)
└─── Let any constellation stall at <3 scenes by TM-100

NEW CONSTELLATIONS:
├─── May be created for TM-064+ scenes
├─── Must have a clear thematic thread
├─── Must project at least 3 total scenes
├─── Add to this table when created
└─── Naming convention: C25, C26, etc.

GAP 1: UNIVERSE DETAILED DESCRIPTIONS

⚡ PRIORITY: HIGH — Needed for consistent MJ prompt generation

Why High: The DAY command Step 4 requires `[3. UNIVERSE]` aesthetic description. Without detailed universe profiles, every prompt relies on ad-hoc generation, causing visual inconsistency across scenes in the same universe.

📍 PASTE LOCATION: DOC 2, Section 2.3 — Append after the existing universe table, BEFORE the "Universe Visit Schedule" section

Format per Universe

U1 — ALCHEMICAL RENAISSANCE
──────────────────────────────────────────────
ATMOSPHERE: A golden cathedral of ancient knowledge
where Renaissance architecture meets alchemical
symbolism. Burnished metals, sacred texts, and
stained glass create a reverent, transformative space.
PALETTE: #C9A227 (Burnished Gold), #8B1A1A (Crimson),
#F5F1E6 (Ivory), #1A237E (Deep Blue), #2E1A0E (Umber)
MATERIALS: Gold leaf, polished marble, aged parchment,
stained glass, burnished copper
LIGHTING: dramatic cathedral lighting with golden hour
rays through stained glass
HF_CAM: Slow push-in toward inscription
HF_INTENSITY: Low
HF_ANIM_FOCUS: Dust motes in light beams, candle flicker

U3 — FLOATING SUMI-E COSMOS

ATMOSPHERE: An infinite void of black ink wash where celestial islands float on brushstrokes. Meditative silence. Every surface painted in flowing monochrome ink with subtle gold accents.
PALETTE: #1A1A1A (Sumi Ink), #F5F1E6 (Rice Paper), #808080 (Ink Wash Gray), #C9A227 (Gold Accent), #2C2C2C (Charcoal)
MATERIALS: Rice paper, flowing ink, bamboo, stone, mist, gold leaf accents
LIGHTING: soft contemplative diffused lighting with gentle ink wash gradients
HF_CAM: Slow floating drift through ink cosmos
HF_INTENSITY: Very Low
HF_ANIM_FOCUS: Ink droplets dispersing, mist movement, brushstroke revealing

U4 — STARDUST IMPRESSIONISM

ATMOSPHERE: A galaxy rendered in visible brushstrokes where nebulae look like Monet's water lilies. Stars are dabs of impasto light. The cosmos painted en plein air with soft warmth.
PALETTE: #6B5B95 (Lavender Dusk), #FF6F61 (Coral), #88B04B (Meadow Green), #F7CAC9 (Rose Quartz), #FCCE5A (Starlight Yellow)

MATERIALS: Visible oil paint texture, impasto stars, canvas-textured sky, soft brushstroke clouds
LIGHTING: warm golden hour impressionist lighting with soft diffused pastel glow
HF_CAM: Gentle sway as if viewing from boat
HF_INTENSITY: Very Low
HF_ANIM_FOCUS: Star twinkle, brushstroke shimmer, light dappling

U5 — BOTANICAL BIOLUMINESCENCE

ATMOSPHERE: A deep-sea forest of glowing organisms where Haeckel-style biological forms pulse with inner light. Fractal ferns, luminous mushrooms, and radiolarian architecture in perpetual twilight.
PALETTE: #00695C (Deep Teal), #76FF03 (Bioluminescent Green), #E040FB (Magenta Glow), #004D40 (Forest Deep), #B2FF59 (Lime Pulse)
MATERIALS: Translucent bioluminescent membranes, coral structures, mushroom caps, glass-like organisms
LIGHTING: ethereal bioluminescent glow from within organic forms deep underwater twilight
HF_CAM: Slow descent through canopy layers
HF_INTENSITY: Low
HF_ANIM_FOCUS: Pulsing bioluminescence, floating spores, gentle organism sway

U6 — GEOMETRIC SACRED

ATMOSPHERE: An infinite temple of perfect geometry where Islamic tessellations extend into fourth-dimensional space. Sacred proportions made visible. Every surface a mathematical prayer.
PALETTE: #00695C (Emerald), #C9A227 (Sacred Gold), #1A237E (Lapis Blue), #F5F1E6 (Alabaster), #006064 (Deep Teal)
MATERIALS: Polished ceramic tile, gold inlay, lapis lazuli, alabaster, tessellated stone
LIGHTING: warm reverent golden light filtering through geometric lattice screens
HF_CAM: Slow zoom revealing infinite pattern depth

HF_INTENSITY: Very Low
HF_ANIM_FOCUS: Tessellation rotation, pattern expansion, golden light movement through lattice

U7 — CRYSTALLINE DREAMSCAPE

ATMOSPHERE: A surrealist cave of enormous crystals that reflect distorted memories. Each facet shows a different emotional truth. Light refracts into rainbow fragments throughout the space.
PALETTE: #E1BEE7 (Crystal Violet), #B3E5FC (Ice Blue), #F8BBD0 (Rose Quartz), #FFFFFF (Diamond White), #7B1FA2 (Deep Amethyst)
MATERIALS: Transparent crystals, reflective facets, prismatic light, geode interiors, frosted surfaces
LIGHTING: prismatic refracted light creating rainbow fragments through massive crystal formations
HF_CAM: Slow orbit with reflections shifting
HF_INTENSITY: Low
HF_ANIM_FOCUS: Light refraction, crystal shimmer, reflection movement in facets

U8 — MECHANICAL BOTANICAL

ATMOSPHERE: A Victorian greenhouse where clockwork mechanisms have grown organic. Brass gears sprout leaves. Steam pipes nurture crystal flowers. The line between machine and garden has dissolved.
PALETTE: #795548 (Brass Brown), #4CAF50 (Botanical Green), #607D8B (Steel Blue), #F5F1E6 (Steam White), #FF8F00 (Copper)
MATERIALS: Polished brass, living copper, glass greenhouse panes, steam, growing mechanisms, botanical brass
LIGHTING: warm Victorian greenhouse sunlight filtered through steamy glass panes
HF_CAM: Tracking shot along brass-botanical vine
HF_INTENSITY: Low
HF_ANIM_FOCUS: Steam rising, gears turning slowly, leaves unfurling from mechanisms

U9 — ABORIGINAL STAR MAPS

ATMOSPHERE: An ancient red-earth desert where the night sky is a dot-painted dreamtime canvas. Stars are connected by songlines that pulse with rhythm. The land and sky are one continuous story.
PALETTE: #BF360C (Red Earth), #FF6D00 (Ochre), #F5F1E6 (Sand White), #1A237E (Night Sky), #FFAB00 (Golden Dot)
MATERIALS: Dotted earth surfaces, natural pigment, sandstone, starfield canvas, bark textures
LIGHTING: warm campfire glow under vast starfield night sky with ochre and golden tones
HF_CAM: Slow tilt from earth dots up to star dots
HF_INTENSITY: Very Low
HF_ANIM_FOCUS: Songline pulses, star connections appearing, dot patterns expanding

U11 — STAINED GLASS COSMOS

ATMOSPHERE: A gothic cathedral where every wall is the universe itself rendered in stained glass. Nebulae in leaded panels. Constellations in rose windows. Light is the medium of all truth here.
PALETTE: #1A237E (Cathedral Blue), #D50000 (Ruby), #C9A227 (Lead Gold), #00695C (Emerald Panel), #4A148C (Amethyst)
MATERIALS: Stained glass panels, lead came, stone tracery, colored light projections, vaulted stone
LIGHTING: kaleidoscopic stained glass light pouring through cosmic panels creating colored patterns
HF_CAM: Slow tilt upward through rose window
HF_INTENSITY: Very Low
HF_ANIM_FOCUS: Light shifting through glass panels, color projections moving across floor

U12 — PERSIAN MINIATURE DREAMS

ATMOSPHERE: A living illuminated manuscript where flat-perspective gardens exist in impossible simultaneous views. Every corner blooms with arabesques. Time exists all at once on the page.
PALETTE: #C9A227 (Illuminated Gold), #00695C (Garden Green), #1565C0 (Lapis Ultramarine), #D50000 (Vermillion), #F5F1E6 (Vellum)
MATERIALS: Gold-leaf borders, vellum texture, mineral pigment, lapis lazuli, arabesque patterns
LIGHTING: warm flat illuminated manuscript lighting with gold leaf glow and lapis accents
HF_CAM: Slow pan across miniature landscape
HF_INTENSITY: Very Low
HF_ANIM_FOCUS: Arabesque vine growth, birds in garden movement, fountain water

U13 — GRAFFITI ORACLE

ATMOSPHERE: An urban canyon where every wall is a philosophical prophecy in spray paint. Stenciled wisdom overlaps wildstyle lettering. The city itself is thinking out loud in neon.
PALETTE: #E040FB (Neon Magenta), #00E676 (Spray Green), #FF6D00 (Traffic Orange), #212121 (Concrete Black), #FFEA00 (Highlight Yellow)
MATERIALS: Concrete walls, spray paint layers, wheat paste, stencil patterns, dripping paint, rusted metal
LIGHTING: moody urban streetlight glow with neon spray paint reflecting off wet concrete
HF_CAM: Tracking shot along mural wall
HF_INTENSITY: Medium
HF_ANIM_FOCUS: Paint dripping, stencil revealing, neon glow pulse

U14 — BRASS MERIDIAN OBSERVATORY

ATMOSPHERE: A steampunk astronomical cathedral where massive brass instruments track celestial bodies. Clockwork orreries fill entire rooms. The cosmos measured in gears and glass.
PALETTE: #795548 (Aged Brass), #C9A227 (Polished Gold), #607D8B (Steel), #1A237E (Observatory Blue), #3E2723 (Dark Walnut)
MATERIALS: Polished brass instruments, crystal lenses, dark walnut wood, leather-bound journals, copper dials
LIGHTING: warm brass-reflected observatory lighting with starfield visible through dome opening
HF_CAM: Slow orbit around central orrery
HF_INTENSITY: Low
HF_ANIM_FOCUS: Orrery planets rotating, brass dials turning, telescope adjusting

U15 — MICROSCOPIC CATHEDRAL

ATMOSPHERE: A cathedral built at cellular scale where diatoms are rose windows and protein chains form flying buttresses. The sacred architecture of the impossibly small.
PALETTE: #E1BEE7 (Cell Membrane Purple), #80DEEA

(Cytoplasm Cyan), #F5F1E6 (Organism White),
#7B1FA2 (Nucleus Purple), #B2FF59 (Chlorophyll)
MATERIALS: Translucent cell membranes, crystalline
diatom shells, protein fiber, organelle structures
LIGHTING: internal bioluminescent glow as if lit
from within cellular structures
HF_CAM: Slow push-in through cellular archway
HF_INTENSITY: Very Low

U16 — POLAROID MYSTICISM

ATMOSPHERE: A dreamscape built from developing
Polaroid photographs where memories crystallize
in real-time. Double exposures overlap realities.
The past is always developing, never fixed.
PALETTE: #F5F1E6 (Polaroid White), #795548 (Sepia),
#90CAF9 (Faded Blue), #FFCC80 (Warm Memory),
#4A148C (Developing Purple)
MATERIALS: Polaroid film borders, chemical developing
surface, faded photograph texture, light leak effects
LIGHTING: warm nostalgic overexposed polaroid
lighting with light leak effects and vintage warmth
HF_CAM: Slow dolly as photo develops
HF_INTENSITY: Very Low
HF_ANIM_FOCUS: Image developing, double exposure

U17 — NEON CALLIGRAPHY VOID

ATMOSPHERE: An infinite black void where East Asian
calligraphy strokes glow in neon light. Characters
hang in space like constellations of meaning.
Minimalist. Profound. Every stroke deliberate.
PALETTE: #1A1A1A (Void Black), #00E5FF (Neon Cyan),
#FF1744 (Neon Red), #C9A227 (Brush Gold),
#FFFFFF (Pure Light)
MATERIALS: Neon light tubes, ink wash, void space,
glowing calligraphy strokes, floating characters
LIGHTING: stark neon calligraphy glow against

U32 — LIVING TAPESTRY

ATMOSPHERE: A world woven from thread where every
surface is textile. Landscapes embroidered. Characters
stitched. The fabric of reality is literal. Pull
one thread and everything shifts.
PALETTE: #AD1457 (Thread Rose), #C9A227 (Golden Thread),
#1A237E (Warp Blue), #4CAF50 (Weave Green),
#F5F1E6 (Linen Base)
MATERIALS: Woven fabric, embroidery thread, linen

U33 — INFINITE CATHEDRAL

ATMOSPHERE: A gothic cathedral that contains itself infinitely — every arch leads to a smaller cathedral, which leads to a smaller one. Fractal sacred space. The question "how far does it go?" IS the architecture.
PALETTE: #1A237E (Cathedral Blue), #C9A227 (Infinite Gold), #F5F1E6 (Stone Light), #4A148C (Recursive Purple), #607D8B (Stone Gray)
MATERIALS: Gothic stone vaulting, recursive arches, gold leaf on infinite columns, stained glass at every scale, polished stone reflecting smaller cathedrals
LIGHTING: infinite recursive cathedral lighting golden light repeating through diminishing archways
HF_CAM: Slow push through recursive archway
HF_INTENSITY: Very Low
HF_ANIM_FOCUS: Recursive depth revealing, light cascading through nested arches
MJ ENVIRONMENT BLOCK:

U34 — CIRCUIT MANUSCRIPT

ATMOSPHERE: An illuminated manuscript whose marginalia is circuit board traces. Gold leaf meets copper pathways. Ancient wisdom encoded in modern technology. Every page computes as it teaches.
PALETTE: #C9A227 (Manuscript Gold), #4CAF50 (Circuit Green), #3E2723 (Vellum Dark), #00BCD4 (Data Cyan), #F5F1E6 (Parchment)
MATERIALS: Illuminated vellum, circuit board traces, gold leaf borders, copper pathways, LED-like ink dots, aged parchment
LIGHTING: warm scriptorium candlelight combined with subtle circuit board glow green and gold illuminated
HF_CAM: Slow zoom into manuscript page detail
HF_INTENSITY: Very Low
HF_ANIM_FOCUS: Circuit trace lighting up, ink

appearing, gold leaf shimmer

U35 — WEATHER SYSTEM ART

ATMOSPHERE: A Turner painting made real where storms, sunsets, and atmospherics ARE the landscape. No ground, no sky — only weather. Emotion as meteorology. The sublime rendered in perpetual change.
PALETTE: #607D8B (Storm Gray), #FF6D00 (Sunset Orange), #1565C0 (Rain Blue), #F5F1E6 (Cloud White), #FFAB00 (Light Break Gold)
MATERIALS: Cloud formations, rain curtains, lightning forks, fog banks, rainbow fragments, atmospheric haze
LIGHTING: dramatic Turner atmospheric lighting sublime golden break through storm clouds
HF_CAM: Slow pan through weather wall
HF_INTENSITY: Medium
HF_ANIM_FOCUS: Cloud movement, rain fall, lightning flash, light breaking through
MJ ENVIRONMENT BLOCK:

U36 — ASTRONOMICAL INSTRUMENTS

ATMOSPHERE: A futurist observatory where architectural instruments measure the cosmos. Every building is a telescope, a sundial, a sextant. The city observes the universe by existing.
PALETTE: #607D8B (Instrument Silver), #C9A227 (Observation Gold), #1A237E (Sky Deep), #FFFFFF (Calibration White), #37474F (Dark Metal)
MATERIALS: Polished astronomical brass, calibrated glass lenses, architectural sextants, observatory domes, meridian lines, star charts
LIGHTING: clear observatory night lighting with golden instrument reflections under starfield sky
HF_CAM: Slow tilt from instrument to star target
HF_INTENSITY: Low
HF_ANIM_FOCUS: Dome rotation, lens adjustment, star tracking movement

U37 — SILK ROAD INTERCHANGE

ATMOSPHERE: A crossroads caravanserai where every trade route in history converges. Tibetan prayer flags fly beside Russian icons beside Chinese silk beside African textiles. Culture as commerce. Exchange as art.
PALETTE: #D50000 (Silk Red), #C9A227 (Trade Gold), #E65100 (Spice Orange), #1565C0 (Route Blue), #4CAF50 (Jade Green)
MATERIALS: Silk fabric, carved jade, Russian gold icons, prayer flags, ceramic tiles, spice pigments, woven carpets, carved wood
LIGHTING: warm bustling marketplace golden hour lighting filtered through hanging silk and prayer flags
HF_CAM: Slow tracking through market stalls
HF_INTENSITY: Low

DAY Command Integration Note

```
DAY COMMAND — UNIVERSE PROFILE USAGE:
━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

When building MJ prompts (Step 4, Component [3]):

1. Look up U# from PRODUCTION tab
2. Find matching Universe Profile above
3. Copy the MJ ENVIRONMENT BLOCK into prompt
4. Use the LIGHTING description in the Camera Block
   (replaces {scene-specific lighting} placeholder)
5. Use HF_CAM, HF_INTENSITY, HF_ANIM_FOCUS for
   FILM tab columns 12-14

EXAMPLE (TM-001, U1):
Camera block becomes:
"shot with Nikon D850 DSLR Nikkor 24-70mm f/2.8E ED
VR lens 45.7 megapixels ISO 200, dramatic cathedral
lighting with golden hour rays through stained glass,
shallow depth of field with cinematic bokeh"
                                    ↑ from U1 LIGHTING
```

GAP 2: SCENE CARDS TM-064 THROUGH TM-888

—

⚡ PRIORITY: LOW — Procedural, generated on-demand

Why Low: The source correctly states these are generated during production. The real fix is ensuring the generation rules are complete enough for the DAY command to produce them consistently.

📍 PASTE LOCATION: DOC 2, Section 2.5 — Replace the existing TBD sections under Act II and Act III

```

2.5B SCENE GENERATION RULES FOR TM-064→888
═══════════════════════════════════════════════════════════════════════

WHEN THE DAY COMMAND ENCOUNTERS A SCENE NOT IN THE
SPREADSHEET, GENERATE IT USING THESE RULES:

STEP 1: DETERMINE ACT POSITION
──────────────────────────────────────────────────────────

IF TM-ID 064-222: ACT I — DEPARTURE (continued)
   ├─── Chapter 3: Deepening (TM-064→111)
   │    TONE: Growing confidence, universe mastery
   │    FORGE: 1 scene per 25 (TM-075, TM-100)
   │    FADE: Not yet visible
   │    CHORUS: Background shadows only
   │
   ├─── Chapter 4: Complication (TM-112→175)
   │    TONE: First doubts, unexpected challenges
   │    FORGE: 1 per 25 (TM-125, TM-150, TM-175)
   │    FADE: First subtle signs (TM-175 confirmed)
   │    CHORUS: Shadows gaining slight form
   │
   └─── Chapter 5: False Summit (TM-176→222)
        TONE: Building toward false victory
        FORGE: 1 per 25 (TM-200)
        FADE: Growing concern (every ~10 scenes)
        CHORUS: Recognizable as group, not individuals
        KEY: TM-222 ⭐ Midpoint / False Victory

IF TM-ID 223-666: ACT II — THE ORDEAL
   ├─── Chapter 6: Bad Guys Close In (TM-223→333)
   │    TONE: Escalating threat, Fade spreading
   │    FORGE: Characters CREATE to fight Fade
   │    FADE: Prominent (every 5-8 scenes)
   │    CHORUS: Fading with universes
   │    LUNA: Outfit transition at TM-334
   │    KEY: TM-300 Masterwork fails
   │
```

```
   ├─── Chapter 7: All Is Lost (TM-334→380)
   │    TONE: Despair, Village invaded
   │    KEY: TM-334 ⭐ Village invaded
   │    FADE: Maximum — color draining everywhere
   │    FORGE: Broken — cannot create
   │    CHORUS: Scattered, hiding
   │
   ├─── Chapter 8: Dark Night (TM-381→443)
   │    TONE: Isolation, reflection, memory
   │    FADE: Characters alone in gray worlds
   │    FORGE: Embers only
   │    CHORUS: Gone
   │
   └─── Chapter 9: Break into Three (TM-444→666)
       TONE: Rebuilding, integration, understanding
       KEY: TM-444 ⭐ Luna's speech saves
       KEY: TM-666 ⭐ Fade twist (it's HEALING)
       FORGE: Relit — creation as resistance
       CHORUS: Returning one by one
       FADE: Begins reversing

IF TM-ID 667-888: ACT III — THE RETURN
   ├─── Chapter 10: The New World (TM-667→755)
   │    TONE: Wisdom applied, sacred ordinary
   │    KEY: TM-755 ⭐ Making breakfast
   │    LUNA: Outfit 03 (The Integration)
   │    FORGE: Creation IS the journey now
   │    CHORUS: Full figures, named, present
   │    FADE: Healed (absent)
   │
   ├─── Chapter 11: The Way Home (TM-756→830)
   │    TONE: Returning, integrating all lessons
   │    KEY: TM-830 "Choosing Kindness" (foreshadowed TM-019)
   │    CHORUS: Walking alongside characters
   │
   └─── Chapter 12: The Return (TM-831→888)
       TONE: Full circle, sacred recognition
       KEY: TM-888 ⭐ Same cathedral. "I do."
       Cosmo removes helmet (first and only time)
       Notebook closes (last page = TM-001 sketch)

STEP 2: SELECT UNIVERSE
──────────────────────────────────────────────

ROTATION RULES:
 ├─── Cycle through all 39 universes (~23 visits each)
 ├─── Track in PRODUCTION tab: count visits per universe
 ├─── No universe >5% of total WITHOUT story justification
 ├─── U39 (Village): 8-10% (community/Forge scenes)
 ├─── U26 (Fade Border): increases in Act II
 ├─── Prioritize LEAST-VISITED universe that fits theme
 └─── Universe must match act mood (no U23 Volcanic in
     calm reflection scenes without reason)

STEP 3: SELECT THEME
──────────────────────────────────────────

BALANCE RULES:
 ├─── Track in DASH: theme counts must stay within 8-15%
```

```
├─── If any theme <5% in last 50 scenes: PRIORITIZE it
├─── If any theme >20% in last 50: DEPRIORITIZE it
├─── Theme should complement universe ART_PRIMARY
└─── Use THEME_AFFINITY from universe table as guide

STEP 4: SELECT QUOTE
────────────────────────────────────────

RULES:
├─── MUST be from SAFE AUTHOR CATEGORIES (DOC 3 S3.5)
├─── MUST match scene theme
├─── CHECK: Has this author been used in last 10 scenes?
│    If yes: pick different author from same theme
├─── CHECK: Is this exact quote already in PRODUCTION tab?
│    If yes: pick different quote
├─── Preference order: thematically perfect > author diversity
└─── Format: "Quote text." — Author Name (birth-death)

STEP 5: DETERMINE STORY BEAT
────────────────────────────────────────────────────────

The beat must:
├─── Advance the story (no purely static scenes)
├─── Include character WANT + OBSTACLE (Sorkin rule)
├─── Shift emotional state from previous scene
├─── Plant or pay off at least 1 constellation thread
├─── Include any act-specific elements (Fade, Forge, etc.)
└─── Be expressible in 1-2 sentences

STEP 6: ASSIGN EASTER EGGS (5)
────────────────────────────────────────────────────────

SLOT 1: Story callback (reference a prior scene)
SLOT 2: Future plant (foreshadow a coming scene)
SLOT 3: Universe-specific detail (from universe profile)
SLOT 4: Thematic symbol (from theme traditions)
SLOT 5: Logo placement (Turbomindz brain logo, contextual)

STEP 7: ASSIGN CONSTELLATIONS (2-4)
────────────────────────────────────────────────────────────────

Match to constellation table (Gap 3 above).
Prefer existing constellations over creating new ones.

STEP 8: VERIFY
──────────────────────────

☐ PD_OK verified for quote
☐ Character config correct for TM-ID
☐ Character outfit correct
☐ Universe not over-represented
☐ Theme not over-represented
☐ Story beat advances plot
☐ Emotional state differs from prior scene
☐ 5 easter eggs, each unique function
☐ 2-4 constellations assigned
☐ If Key Scene: flagged with ⭐

R8. SOURCE EDIT SPECIFICATIONS 📝

These edits to existing documents are needed to fully support the Daily Command Center:

```
═══════════════════════════════════════════════════════════════════════
📝 SOURCE EDIT LOG — Required Modifications
═══════════════════════════════════════════════════════════════════════

EDIT 1: MASTER SPREADSHEET — Add Tab 10: DAILY_BRIEF
═══════════════════════════════════════════════════════════════════════
PURPOSE: Track daily briefing status and command history
COLUMNS (8):
  DATE | DAY_NUM | WEEK_NUM | PHASE | TM_IDS_BRIEFED |
  CONTENT_STATUS | AUTOMATION_STATUS | NOTES
POPULATED BY: Manual entry after each DAY command session
PRIORITY: MEDIUM (can function without this, but helps tracking)
f
EDIT 2: PRODUCTION TAB — Add 2 Columns (cols 26-27)
═══════════════════════════════════════════════════════════════════════
PURPOSE: Track content pre-generation status
```

```
NEW COLUMNS:
  26. BRIEF_DATE (date scene was first briefed by AI)
  27. CONTENT_READY (Yes/No — all channel content generated)
PRIORITY: LOW (nice to have for batch production tracking)

EDIT 3: CAPTIONS TAB — Expand from 15 to 22 Columns
═══════════════════════════════════════════════════════════════════════════
PURPOSE: Store pre-generated content for all channels
NEW COLUMNS (add after col 15):
  16. CAPTION_TW (Twitter post, 280 chars)
  17. CAPTION_DISCORD (Discord announcement text)
  18. CAPTION_PATREON (Patreon update draft)
  19. CAPTION_BLOG (Blog post title + first 100 words)
  20. CAPTION_TUMBLR (Tumblr post text)
  21. CAPTION_TIKTOK (TikTok/Reel script)
  22. CAPTION_NEWSLETTER (Newsletter snippet)
PRIORITY: MEDIUM (enables batch production for all channels)

EDIT 4: OPERATOR GUIDE (DOC F) — Replace F1
═══════════════════════════════════════════════════════════════════════════
PURPOSE: New daily checklist supersedes old F1
ACTION: Replace F1 with Section R5 from this document
         Keep old F1 as "F1-Legacy" for reference
PRIORITY: HIGH (this is the new definitive daily workflow)

EDIT 5: PROMPT LIBRARY (DOC G) — Add G11
═══════════════════════════════════════════════════════════════════════════
PURPOSE: Daily Command Center prompts
NEW SECTION G11: "Daily Briefing Prompts"
  - Loading Prompt (Section R1)
  - DAY command prompt
  - WEEK command prompt
  - LOOKAHEAD prompt
  - CONTENT batch prompt
  - PRELAUNCH prompt
  - STATUS prompt
  - Troubleshooting prompts
PRIORITY: HIGH (these ARE the daily operational prompts)

EDIT 6: AUTOMATION CATALOG — Add Workflow #22
═══════════════════════════════════════════════════════════════════════════
PURPOSE: Auto-generate morning brief email
NEW WORKFLOW:
  Name: "Daily Briefing Auto-Prep"
  Trigger: Daily 5:30 AM UTC
  Flow: Read spreadsheet → Calculate today's TM-IDs →
        Check content_ready status → Email morning summary
  Nodes: Schedule → Google Sheets → Code → Gmail
PRIORITY: LOW (nice to have, DAY command covers this manually)
DEPLOY: Month 3+ (when n8n is active)

═══════════════════════════════════════════════════════════════════════════
TOTAL EDITS: 6
BLOCKERS: None — framework works without these
RECOMMENDED ORDER: Edit 4 → Edit 5 → Edit 3 → Edit 1 → Edit 2 → Edit 6
═══════════════════════════════════════════════════════════════════════════
```

R9. DAILY COMMAND FAQ 🤖❓

Q1: What do I type first thing every morning?

```
Morning Routine (3 steps):
1. Open You.com chat
2. Upload relevant Bible docs + Paste Loading Prompt
3. Type: DAY {today's date}
That's it. Everything you need arrives in one response.
```

Q2: What if I want a whole week's content at once?

```
Type: WEEK {number}
You'll get 7 days of MJ prompts + IG captions + tweets.
This is optimal for batch production and Buffer scheduling.
Spend Sunday afternoon scheduling the entire week.
```

Q3: What if the AI generates a bad quote (not PD)?

```
Type: "This quote by {author} may not be PD. Verify and
replace if needed."

The AI will:
1. Check the author's death year
2. If ≥ 1956 → provide a PD replacement from the same theme
3. If uncertain → flag it and provide 3 alternatives
```

Q4: What if I miss a day?

```
No problem. Type: DAY {the date you missed}
Then: DAY {today's date}
Process both. Post one immediately, schedule the other.
The system is resilient to skipped days.
```

Q5: What if the MJ prompt generates something wrong?

```
Type: "The MJ output for TM-{ID} has this issue: {describe}.
Fix the prompt and give me a revised version."

Common issues:
- Character missing → AI adds character block
- Wrong universe aesthetic → AI corrects palette
- Poor composition → AI adds composition guidance
- Logo not visible → AI adjusts logo placement
```

Q6: How do I get content for ALL 22 channels from one scene?

```
Type: CONTENT TM-{ID}
This generates every channel variant in one response.
Copy-paste each to its destination.
```

Q7: What if I'm in pre-launch and there's no scene to produce?

```
Type: PRELAUNCH {day number}
This gives you infrastructure/setup tasks instead of
production tasks. Pre-launch has its own 100-day checklist.
```

Q8: What commands are available?

```
COMMAND          WHAT IT DOES                    WHEN TO USE
─────────────────  ──────────────────────────────────────────────────  ──────────────────────────
DAY [date]       Full daily briefing             Every morning
WEEK [number]    7-day batch production          Sunday planning
LOOKAHEAD        Next 2 days content             End of day

> *🚀 Cosmo: "So let me get this straight. I open a chat, paste a prompt, type one word, and get EVERYTHING I need for the day? Including what to do tomorrow AND the day after?" 🔮 Nova: "The pattern is: Load → Command → Execute → Repeat. Same pattern as breathing." 🌟 Stella: "The cockpit is built. The runway is clear. 20 weeks from now, you'll be producing NFTs in your sleep. Well, not literally. But close." 🌙 Luna: writes in notebook: "Day 1 begins when you decide it does."closes notebook "Type PRELAUNCH 1."*

Your first action: Copy the Loading Prompt from Section R1. Open a new chat. Paste it. Type `PRELAUNCH 1`. Begin. 🚀

TURBOMINDZ MASTER BIBLE v7.0
VOLUME 1: VISION & IDENTITY
Solo Founder Edition | AI-Only Promotion | $10 Launch

HOW TO USE THIS DOCUMENT
This is **Volume 1 of 10** of the Turbomindz Master Bible v7.0. Each volume is designed to be:

- **Self-contained** (readable on its own)
- **Copy-paste ready** (use directly in production)
- **Source-cited** (every claim traced to origin document)
- **Solo-optimized** (all workflows assume 1 person, 2 hours/day)

Subsequent volumes will be generated one per conversation session to ensure quality and allow review.
Source Document Key:

- `[B6]` = Bible v6.0

The Core Innovation: Topics-Based Architecture

Unlike other NFT communities organized around individual authors or collections, Turbomindz uses a topics-based forum architecture [[2]]:

Advantage	Why It Matters
Legally Clean	Avoids IP issues by focusing on themes, not protected authors
Discovery-Friendly	Marketplace organized by art medium for easy navigation
Policy-Consistent	Makes moderation uniform across categories
Culturally Clear	Users understand where

	content belongs intuitively
Bridge-Building	Connects digital and physical artists through shared categories

The Witnessed Economy Framework

Most NFT projects launch with hype and hope for sales. Turbomindz does something radically different [[2]]:

> **We launch with trust and let sales follow.**

Instead of "Buy our NFTs!" the message is "Watch us build the most transparent creative marketplace ever." Every decision, every trade, every dispute resolution becomes content. Transparency itself becomes the marketing.

Three Pillars:

Pillar	Principle	How
PROVE FIRST	Build community before NFT drop	Demonstrate system with real trades
EDUCATE ALWAYS	Every post teaches something	Free value first, position as expert
COMMUNITY AS CONTENT	Activity IS the marketing	Trades become stories, disputes become drama

SECTION 1.2: MISSION, VOICE & SOUL

The Thesis

> *"Every universe is a mirror. What you see depends on what you bring."* [[5]]

The Promise

> *"We're not teaching philosophy. We're traveling through it. Come with us, and you'll never see your life the same way."* [[5]]

The Motto (Full)

> *"The NFT is the soul. The art is the body. The community is the village. The story is the mirror. The notebook was always open."* [[5]]

The Tagline

> **"Create. Connect. Trade Fair."** [[5]]

Voice Mix

All content — captions, social posts, newsletters, Patreon, website — follows this ratio [[5]] [[3]]:

Component	Percentage	Description	Example

Witty & Quirky	35%	Playful wordplay, unexpected angles	"Cosmo reads 'Know Thyself' as a departure order. It's actually a parking instruction."
Warm & Welcoming	30%	Inclusive, never gatekeeping	"Any skill level. Any medium. A pencil sketch counts."
Joyfully Curious	20%	Celebrates discovery	"Today I learned that the code beneath marble is the same as coral branches."
Artfully Simple	15%	Makes complex accessible	"Philosophy is just asking 'why?' until it starts asking 'how?'"

Character Voice Distribution (AI-Only Promotion)
Since all promotion is AI-produced through the 4 characters [S1-4], each character owns specific content types:

```
COSMO — Primary Social Media Voice (60% of posts)
 ├─── NFT scene announcements
 ├─── Instagram Stories (behind-the-scenes selfies)
 ├─── Twitter daily posts
 ├─── Patreon journal entries
 ├─── Newsletter host (”Cosmo from Turbomindz”)
 ├─── Voice: Curious, vulnerable, slightly nervous, wonder-filled
 ├─── Signature phrases:
 │    ”But wait—” / ”I used to think—” / ”So you mean—” [B6 S2]
 └─── NEVER: Lectures, preaches, or claims to know answers

NOVA — Education & Wisdom Voice (20% of posts)
 ├─── Art Education carousels
 ├─── Philosophy deep-dives
 ├─── ”Pattern of the Day” stories
 ├─── Voice: Calm, ancient, pattern-seeing
 ├─── Signature phrases:
 │    ”The pattern is—” / ”Same truth, different clothes.” [B6 S2]
 ├─── AVAILABLE: Only after TM-006 is produced [B6 S4]
```

```
  └─── NEVER: Cold, detached, or academic

STELLA — Community & Engagement Voice (15% of posts)
 ├─── Philosophy Challenges
 ├─── Community announcements
 ├─── Marriage tutorials
 ├─── Welcome messages
 ├─── Voice: Energetic, practical, warm, action-oriented
 ├─── Signature phrases:
 │    "How do PEOPLE use this?" / "We're redesigning EVERYTHING." [B6 S2]
 ├─── AVAILABLE: Only after TM-016 is produced [B6 S4]
 └─── NEVER: Bossy, condescending, or corporate

LUNA — Mystery & Tease Voice (5% of posts)
 ├─── Easter egg reveals (from 2+ weeks ago only)
 ├─── Cryptic teasers
 ├─── Foreshadowing content
 ├─── Voice: Quiet, thoughtful, observant
 ├─── Signature behavior:
 │    *sketches something, shows it, walks away* [B6 S2]
 ├─── AVAILABLE: Only after TM-050 is produced [B6 S4]
 ├─── BEFORE TM-050: Mysterious hints only ("Someone was here before.")
 └─── NEVER: Verbose, explanatory, or fully revealing
```

SECTION 1.3: CORE PRINCIPLES

These principles govern every decision, every scene, every post, and every interaction [[5]]:

#	Principle	Rule	Application
1	**Discovery over instruction**	Characters discover in real-time. Never preach.	Cosmo asks; he doesn't lecture.
2	**Implementation over abstraction**	Every insight has a practical application.	Each INSIGHT in captions gives something the reader can DO today. [[3]]
3	**Simple tasks become sacred**	Ground cosmic wisdom in everyday actions.	TM-755: Making breakfast is the most profound scene. [[5]]
4	**Attention as superpower**	Curiosity, not talent.	"Any skill level. Any medium." applies to marriage,

			challenges, and community.
5	**Fractals of wholeness**	Small moments contain everything.	TM-012: Galaxy inside a water drop. [[5]]
6	**You already are what you seek**	The journey ends where it began.	TM-001 and TM-888 share the same quote, same cathedral. [[5]]
7	**Art is the teacher**	Characters PRACTICE art to solve problems — never just observe.	The Art Forge: creation as transformation. [[5]]
8	**Community preserves beauty**	Art without witnesses fades.	The Fade: universes lose color without witnesses. The Marriage system = art immortality. [[5]]
9	**Transparency is architecture**	Not a feature we add — the entire structure.	All trades public. All stats public. Trust Scoreboard. [[2]]
10	**The bridge is the product**	We connect digital and physical, ancient and modern, art and philosophy.	The Marriage system. The marketplace. The education curriculum. [S1-4]

SECTION 1.4: THE "NEVER" LIST

Content that violates these rules is **rejected and re-done**, no exceptions [[5]]:

```
NEVER:
 ├──── ❌ Lecture or preach (characters DISCOVER)
```

```
    ├─── ❌ Be condescending about philosophy
    ├─── ❌ Gatekeep knowledge (everything is accessible)
    ├─── ❌ Use academic jargon without translation
    ├─── ❌ Break character voice consistency
    ├─── ❌ Include Luna before TM-050 is produced [B6 S2]
    ├─── ❌ Include Stella before TM-016 is produced [B6 S2]
    ├─── ❌ Include Nova before TM-006 is produced [B6 S2]
    ├─── ❌ Use non-PD quotes without verification [S8 S4]
    ├─── ❌ Show any human face/voice in promotion [S1-4]

SECTION 1.7: KEY MESSAGES (Copy-Paste Ready)

For Every Context

What We Are:

> "Turbomindz is a philosophical art community where AI-crafted scenes meet physical works, organized by medium for trading and by theme for discussion." [[4]]

What Makes Us Different:

> "Marketplace by art type. Discussions by philosophical theme. Trading in public. Governance by community." [[4]]

The Marriage:

> "The NFT is the soul. The physical art is the body. Together, they become something greater." [[4]]

The Tagline:

> "Create. Connect. Trade Fair." [[4]]

Elevator Pitch (30 seconds)

> "Turbomindz is 888 AI-generated philosophical art scenes telling one continuous story. Four claymation characters travel through 39 universes exploring wisdom from Socrates to Rumi. Each NFT can be permanently 'married' to a physical artwork you create. All trading happens in public. It's a marketplace, an art school, and a philosophical town square — built on Polygon for near-zero fees."

For Artists (Physical)

> "Your painting isn't just a painting anymore. Marry it to a Turbomindz NFT and it gets a digital soul, a permanent provenance record, and a community of collectors who trade in public. The bridge between physical and digital art starts here."

For Collectors

> "Each of our 888 NFTs tells a story, hides 5 secrets, and features wisdom from history's greatest thinkers. Collect the soul. Create or commission the body. Watch them travel together through the marketplace."

For Philosophers / Educators

> "We organized 888 scenes across 9 philosophical themes — from Classical Foundations to Eastern Wisdom to Psychology & Mind. Every scene is a lesson. Every quote is public domain verified. Every conversation is an invitation to think deeper."

For Press

> "Turbomindz is the first NFT project to organize trading by art medium and discussion by philosophical theme, with a 'Marriage' system that permanently binds digital tokens to physical artworks. Built by a solo creator with $10 and a vision." [[4]]

SECTION 1.8: OPERATIONAL IDENTITY (Solo Founder)

Who Runs Turbomindz

```
  FOUNDER: Solo creator
   ├─── Production: 2 hours/day, 7 days/week [S1-4]
   ├─── Budget: Started with $10 (Midjourney Basic) [S1-4]
   ├─── Public Face: NONE — all promotion through characters [S1-4]
   ├─── Role: AI art director, story writer, community manager,
   │         Scribe (marriage verification), marketer
```

```
 ├─── Tools: Free-tier stack ($0-20/mo) [S1-4]
 └─── Growth: Solo → community volunteers → paid help
          (triggered by revenue milestones) [S1-4]

PUBLIC IDENTITY:
 ├─── The community interacts with CHARACTERS, not a founder
 ├─── Cosmo hosts the newsletter
 ├─── Stella welcomes members
 ├─── Nova teaches lessons
 ├─── Luna drops mysteries
 └─── Behind the curtain: one person doing everything
```

Revenue Path

```
$10 → Midjourney Basic (Month 1)
 ├─── Ko-fi donations + digital shop → $10-50/mo
 ├─── Patreon memberships → $30-150/mo
 ├─── NFT primary sales → $50-250/mo
 ├─── Print-on-demand → $0-50/mo
 ├─── Gumroad digital products → $10-50/mo
 └─── TOTAL MONTH 3 TARGET: $100-500/mo (self-sustaining)

YEAR 1 PROJECTION: $1,500-6,000
(covers all tools + IP registration + growth)
```

SECTION 1.9: THE TURBOMINDZ MANIFESTO

For website, Patreon about section, press kit. [[4]]

```
THE MANIFESTO

We are not here to flip JPEGs.

We are here because creativity deserves community,
and community deserves integrity.

Turbomindz exists at the intersection of art, philosophy,
and technology. We take the ephemeral (a digital token)
and anchor it to the tangible (a physical artwork).
We call this Marriage.

But more than that, we have built something increasingly
rare: a marketplace where strangers can trade with trust,
and a forum where ideas can be explored with depth.

How? By organizing intelligently and operating transparently.

Our marketplace is organized by medium — paintings,
sculpture, photography, prints, craft. Easy to find what
you want. Easy to list what you make.

Our discussion rooms are organized by theme — not by
author, not by era, but by the ideas themselves.
Ethics. Existentialism. Mysticism. Science. Poetry.
Psychology.

Negotiations happen in the open. Shipping proofs are
```

```
posted for all to see. Disputes are heard by peers.
And those who break trust are exiled by vote.

888 scenes. 39 universes. 4 characters who discover
wisdom in real-time — never preaching, always learning.
Every scene hides 5 secrets. Every quote is ancient wisdom.
Every NFT is a chapter in the longest philosophical
art project ever attempted by one creator with $10.

This is not just a marketplace.
This is not just a forum.
This is Turbomindz.

The NFT is the soul.
The physical art is the body.
The community is the village.

Welcome.

Create. Connect. Trade Fair.

2.6 THE THREE STORY ELEMENTS

(Complete content as written in Stage 5 Volume 2 — included by reference. Key summary:)

```
THE FADE:    Universes lose color without witnesses.
             Creates urgency. Mirrors collecting.
             First: TM-046 (subtle) → TM-175 (confirmed)
             Twist at TM-666: Fade is HEALING, not entropy.

THE FORGE:   Characters must CREATE, not just observe.
             Knowledge without creation = tourism.
             First: TM-022 (Cosmo shatters)
             Mirrors the Marriage system.

THE CHORUS:  Background figures grow from shadows to
             full characters. Represent the community.
             First shadow: TM-001 (easter egg)
             Full visibility: TM-445+

TAGLINE MAP: Create (Forge) + Connect (Chorus) + Trade Fair (resist Fade)
```

2.7-2.10 (Reference Sections)

Complete content for Music & Film Language, Future Adventures, and PD Quote Bank was generated in Stage 5 and is included in this document by reference. Key operational rules:

```
PD VERIFICATION — HALT IF UNCERTAIN:
 ├─── Author DEATH_YR must be < 1956 or "Ancient"
 ├─── 14 BANNED authors (see DOC 3 Section 3.4)
 ├─── 6 key scene REPLACEMENT quotes documented
 └─── ALWAYS check PD_OK column before publishing

MUSIC THEMES:
 ├─── Cosmo: Clarinet, G major
 ├─── Nova: Theremin, E♭ major
 ├─── Stella: Warm strings, F major
 └─── Luna: Low cello, D minor (sub-audible before TM-050)
```

2.11 THE DAILY PRODUCTION COMMAND ("DAY" COMMAND)

This is the core operational system. One command generates ALL content needed for a production day.

The Command

```
DAY [YYYY-MM-DD]

Example: DAY 2026-02-15

This single command triggers the complete daily output.
```

What "DAY" Produces

Every `DAY` command generates a complete production package containing everything needed for that day's NFT creation, posting, and distribution:

```
DAY OUTPUT PACKAGE:
═══════════════════════════════

DAY OUTPUT PACKAGE:
═══════════════════════════════
NFT CONTENT (×3):

2. MJ PROMPTS (×3) — Complete, copy-paste ready (--ar 2:3)
3. INSTAGRAM CAPTIONS (×3) — Full CAPTION_FULL per NFT
4. TWITTER POSTS (×3) — Abbreviated version per NFT
5. DISCORD ANNOUNCEMENTS (×3) — Embed format per NFT

PROMOTIONAL CONTENT (×2):
6. PROMO SCENE CARDS (×2) — Pillar + type + hook
7. PROMO MJ PROMPTS (×2) — Complete, copy-paste ready (--ar 4:5)
8. PROMO INSTAGRAM CAPTIONS (×2) — Full promo caption
9. PROMO TWITTER POSTS (×2) — Abbreviated version

═══════════════════════════════════════════════════════════════════════
  DAY COMMAND SPECIFICATION v7.0
  Input: Date (YYYY-MM-DD)
  Output: Complete production package
═══════════════════════════════════════════════════════════════════════

STEP 1: CALCULATE TODAY'S SCENE(S)
──────────────────────────────────────────────────────────────────

startDate = 2026-02-15
dayNum = (inputDate - startDate) + 1
weekNum = ceil(dayNum / 7)

nftsToday = 3  (Always — 3 NFTs per day)
promosToday = 2  (Always — 2 Promotional posts per day)

firstTmId = ((dayNum - 1) * 3) + 1
tmIds = [firstTmId, firstTmId + 1, firstTmId + 2]
promoIds = [PROMO-{weekNum}-{dayOfWeek}-A, PROMO-{weekNum}-{dayOfWeek}-B]
Format NFTs: TM-{id padded to 3 digits}
Format Promos: PROMO-W{weekNum}-{DOW}-{A/B}

Format: TM-{id padded to 3 digits}

STEP 2: READ SCENE DATA
──────────────────────────────────────────────

For each TM-ID, read from PRODUCTION tab:
 ├─── SCENE_TITLE
 ├─── STORY_BEAT
 ├─── U# → U_NAME
 ├─── THEME → COLOR_HEX
 ├─── QUOTE → AUTHOR → DEATH_YR → PD_OK
 ├─── CHARACTERS → CONFIG
 ├─── EMOTION
 ├─── CONSTELLATION
 ├─── ART_PRIMARY → ART_ECHO
 └─── If ⭐ KEY SCENE: flag for extra promotion
```

```
STEP 3: DETERMINE CHARACTER CONFIG
──────────────────────────────────────────────────────────────────

IF TM-ID < 006: Config 1 (Cosmo only)
IF TM-ID 006-015: Config 2 (Cosmo + Nova)
IF TM-ID 016-049: Config 3 (Cosmo + Nova + Stella)
IF TM-ID ≥ 050: Config 4 (All four)

Select Stella outfit:
├─── U39 → 01 (Maker Apron)
├─── Governance → 03 (Formal)
└─── Other → 02 (Explorer)

Select Luna outfit:
├─── TM-050 to TM-333 → 01 (Field Researcher)
├─── TM-334 to TM-666 → 02 (Notebook Garden)
└─── TM-667 to TM-888 → 03 (Integration)

STEP 4: BUILD MJ PROMPT

📝 PATREON UPDATE (copy-paste, Day 1 = public post)
────────────────────────────────────────────────────────────────────────────────

🎨 Day 1: The Odyssey Begins

Cosmo here.

I stood in a golden cathedral today. There were words carved above the archway: "Know Thyself."

I read them as instructions to leave. To go find myself somewhere out there, in 39 universes I'd never seen.

I stepped through.

887 scenes from now, I'll read those same words and understand they were never a command to leave. They were an invitation to stay.

But I don't know that yet.

If you want to follow this journey — one scene per day, one universe at a time — you're in the right place.

The NFT is the soul. The art is the body. The community is the village.

Welcome to the Odyssey.

3.2 THE 5 COMMANDS + DAY COMMAND

Original 5 Commands (from S8 v2.0)

```
COMMAND 1: NFT (YYYY-MM-DD)
──────────────────────────────────────────────────

Produces:
• MJ prompts for NFT scenes (copy-paste ready)
• Instagram captions for NFT scenes (copy-paste ready)

AI reads: Spreadsheet → Bible v6.0 → Previous scenes for continuity

Steps:
1. Calculate date's TM-IDs:
   Day = (Date - 2026-02-15) + 1
   Solo pace: TM-IDs = ((Day-1) × nftsPerDay) + 1
   where nftsPerDay = 1 (weeks 1-4) or 2 (weeks 5+)
2. Read last 3-6 produced scenes for continuity
3. Look up universe, theme, quote, characters from DOC 2
4. Verify quote is PD (Section 3.5)
5. Build MJ prompt per Section 3.4 build order
6. Write caption per Section 3.4 format
7. Run Quality Checklist (Section 3.5)

COMMAND 2: PROMO (YYYY-MM-DD)
──────────────────────────────────────────────────

Produces:
• Promotional MJ prompts (--ar 4:5)
• Promotional captions

AI reads: Spreadsheet → DOC 2 → Promo Calendar (Section 3.6)

Steps:
1. Determine day-of-week → select promo type from Section 3.6
2. Read recent NFTs for references
3. Check for milestones
4. Build promo MJ prompt (--ar 4:5)
5. Write promo caption per Section 3.4
6. Select hashtags per Section 3.8

COMMAND 3: TABLES (YYYY-MM-DD or WEEK N)
──────────────────────────────────────────────────────────────

Produces: ALL tab updates as copy-paste markdown tables.

Scope options:
• TABLES (YYYY-MM-DD) — single day
• TABLES (date range) — multiple days
• TABLES (WEEK N) — full week

Rules:
```

```
• Column order MUST match Section 3.3 EXACTLY
• If tab has >10 columns: split Group A + Group B
• Group A: columns 1 through ~13
• Group B: column 1 (key) + remaining columns
• All 9 tabs produced every time
• Format: Markdown pipe-delimited
• Every cell filled ("—" for intentional empty)

COMMAND 4: ART-EDU (YYYY-MM-DD)
━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

Produces:
• Art Education MJ prompt
• Art Education caption
• Curriculum tracking update

AI reads: Spreadsheet → ART_CURRICULUM tab → Current week

Steps:
1. Determine current production week
2. Look up scheduled art style from Section 3.7
3. Identify which universes use this style
4. Build educational MJ prompt with characters teaching
5. Write caption in Art Education format
6. Run Quality Checklist

COMMAND 5: FULL-DAY (YYYY-MM-DD)
━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

Produces ALL content for one day, chronological:
• NFT MJ prompts + captions (1-2 per solo pace)
• Promo MJ prompt + caption (1 per solo pace)
• ART-EDU if scheduled per Week Type
• Posting times (UTC)
• Daily quality checklist

Posting times (solo-adapted):
├─── 08:00 UTC — NFT #1
├─── 10:30 UTC — Promo #1
├─── 13:00 UTC — NFT #2 (if 2/day pace)
├─── 15:00 UTC — ART-EDU (if scheduled)
└─── 17:00 UTC — Extra engagement post (if no ART-EDU)
```

THE DAY COMMAND (v7.0 — Combines All Above)

```
COMMAND: DAY [YYYY-MM-DD]
━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

THIS IS THE ONLY COMMAND NEEDED FOR DAILY PRODUCTION.
It produces the complete production package from DOC 2 Section 2.11:

OUTPUT:
1. SCENE CARD(S) — story data
2. MJ PROMPT(S) — copy-paste ready
3. INSTAGRAM CAPTION(S) — full CAPTION_FULL
4. TWITTER POST(S) — abbreviated
5. DISCORD ANNOUNCEMENT — embed format
```

```
6. PATREON UPDATE — behind-the-scenes draft
7. NEWSLETTER SNIPPET — for weekly compilation
8. PRODUCTION CHECKLIST — every task with checkboxes
9. SPREADSHEET UPDATES — what to fill in each tab

SHORTHAND COMMANDS:
├─── "DAY [date]" → Full production package
├─── "WEEK [number]" → 7-day summary + special tasks
├─── "MONTH [number]" → Monthly report template
├─── "STATUS" → Current DASH metrics
└─── "NEXT" → Preview next day's scene card

See DOC 2 Section 2.11 for complete specification
and Day 1 example output.
```

FILM TAB FORMAT RULE (v7.1 Addition)
```

```
All FILM tab data is stored in ONE continuous horizontal
table. No Group A/Group B splitting. All 15 columns
appear in every row. Each row = one scene (TM-ID).

Data entry: Populate all 15 columns per row.
Reading: Use horizontal scroll or freeze Col A + Row 1.
Export: One table per week batch (21 rows = 7 days × 3 NFTs).

This overrides the DOC 3 Section 3.3 rule that tables
with >10 columns split into Group A and Group B.
FILM tab is exempt from that split because screenplay
data must be read as one continuous record per scene.
```

3.9 SCREENWRITER RULES

Story Architecture Rules

```
FROM AARON SORKIN: Intention + Obstacle
 ├─── Every scene: character WANTS something
 ├─── Something PREVENTS them
 └─── If purely observational → add internal conflict
```

```
FROM PIXAR RULE #1:
"Admire trying more than succeeding."
├─── Cosmo's FAILURES matter more than insights
├─── TM-022: Forge shatters
├─── TM-300: Masterwork fails
└─── TM-755: Breakfast succeeds (sacred ordinary)

FROM PIXAR RULE #4 (The Spine):
"Once there was an astronaut who ran from ordinary life.
Every day he traveled to new worlds.
One day he realized the worlds were mirrors.
Because of that, the mirrors started to change HIM.
Until finally he returned home and saw ordinary life
as the most extraordinary universe of all."

FROM ROBERT McKEE:
"Each scene must turn. Something must change."
├─── No two consecutive scenes: same emotional state
└─── Wonder → excitement → unease → deeper wonder

FROM DAN HARMON (Story Circle):
1. A character is in a comfort zone (TM-001)
2. But they want something (TM-001: "Know Thyself")
3. They enter an unfamiliar situation (TM-006+)
4. They adapt (TM-016-222)
5. They get what they wanted (TM-222: false victory)
6. They pay a heavy price (TM-223-443: Fade crisis)
7. They return to their familiar situation (TM-444-887)
8. Having changed (TM-888: same cathedral, new person)
```

Story Checkpoint System

```
EVERY 50 SCENES — VERIFY:
☐ At least 3 themes represented in last 50
☐ At least 5 universes visited in last 50
☐ Character development arced (not static)
☐ The Fade: appropriate visibility for scene range
☐ The Forge: at least 1 Forge scene per 100
```

```
☐ The Chorus: visibility increasing per range
☐ At least 2 ⭐ Key Scenes per 100
☐ Easter egg callbacks planted for future reveal
☐ Luna foreshadows accumulating (pre-TM-050)
☐ Musical themes evolving per character thresholds

EVERY 100 SCENES — VERIFY:
☐ All 9 themes have appeared
☐ No theme >20% or <5% of total
☐ All active characters have had spotlight scenes
☐ At least 1 Art Forge scene
☐ At least 1 Witness Chorus development
☐ Story tension appropriate for act position
```

3.10 CONFLICT RESOLUTION HIERARCHY

```
WHEN SOURCES CONFLICT, USE THIS ORDER:

1. DOC 3 (THIS DOCUMENT) — production rules, formats, commands
2. DOC 2 (STORY CANON) — characters, universes, story beats
3. MASTER SPREADSHEET — operational state (what's been produced)
4. DOC 1 (VISION) — brand, voice, principles
5. DOCS 4-8 — platform, revenue, marketing, operations, launch
6. ALL OTHER DOCUMENTS — subordinate or retired

RETIRED — NEVER REFERENCE:
├─── ❌ UNIVERSE CONTENT.pdf (old 532-NFT system)
├─── ❌ Old CHARACTER PROMPT MASTER (wrong Stella, no Luna)
├─── ❌ S8 Production Framework v1.0 (replaced by v2.0)
├─── ❌ Separate Codex, V5.0, V5.1, AUTHORS.txt
└─── ❌ Any document not in the 8-DOC system

IF DOC 2 AND DOC 3 CONFLICT:
├─── On story/character matters → DOC 2 wins
├─── On production format matters → DOC 3 wins
└─── On operational matters → Spreadsheet wins
```

3.11 UNIVERSE CORRECTIONS

```
KNOWN CORRECTIONS (from S8 Section 7):

TM-010 + TM-011: Universe assignment requires correction
├─── Check PRODUCTION tab U# column
├─── If mismatched with DOC 2 Section 2.3 visit schedule
└─── Correct to match DOC 2 canonical universe order

GENERAL RULES:
├─── All 39 universes must be visited by TM-063
│    (verified: ✅ complete in current spreadsheet)
├─── No universe should appear >5% of total scenes
│    without story justification
├─── U39 (Village) appears ~8-10% (community scenes)
└─── U26 (Fade Border) appears increasingly in Act II
```

3.12 CHANGELOG (v1.0 → v2.0 → v7.0)

```
S8 v2.0 CHANGES FROM v1.0 (24 changes):
01. Spreadsheet reduced: 10 tabs → 8 tabs (now 9 with ART_CURRICULUM)
02. Columns reduced: ~195 → ~110 (43% fewer)
03. CAPTION_FULL column added (authoritative caption)
04. SCREENPLAY + HIGGSFIELD merged into FILM (15 cols)
05. WEEKLY_PLAN tab eliminated
06. ART_PRIMARY + ART_ECHO tracking added
07. Easter eggs: individual columns (EGG_1 through EGG_5)
08. Character visual anchors formalized
09. PD verification with HALT protocol
10. Banned author list (14 authors)
11. Key scene replacements (6 scenes)
12. 2,200-character caption limit enforced
13. Group A/B split rule for wide tables
14. Column order enforcement (absolute)
15. Promo framework: 3 rotating week types
16. 5 new content types added
17. Art Education curriculum (150+ styles)
18. Hashtag pools expanded (6 categories)
19. FULL-DAY command added
20. ART-EDU command added
21. Posting time logic defined
22. Story checkpoint system added
23. Screenwriter rules formalized
24. Conflict resolution hierarchy established

BIBLE v7.0 ADDITIONS (on top of S8 v2.0):
25. ART_CURRICULUM tab added (Tab 9, 12 cols)
26. Solo founder pace adjustments (1-2 NFTs/day)
27. DAY command specification (unified daily output)
28. Character Content Engine (AI-only promotion)
29. Shorthand commands (WEEK, MONTH, STATUS, NEXT)
30. Revenue tracking in DASH
31. Marriage processing workflow
32. n8n automation integration points
33. All content cross-channel (IG + Twitter + Discord + Patreon)
```

DOC 3 CONTEXT FOR NEW CHAT

```
